### The Oysterville Sewing Circle

A coming-of-age memoir of a young swimmer's triumphs and heartbreaks on the path to winning Olympic gold at age 14. Some 50 years later, author Carolyn Wood embarks on a solo pilgrimage to walk the 500 miles of the Camino de Santiago in an attempt to reclaim her "inner tough girl" as she reflects on coming out as gay in the 1970s after a brief marriage and motherhood, and the disillusionment and loss she experiences when her 30-year relationship suddenly ends. After several failed attempts at learning to swim, young Carolyn Wood finally conquers her fears and dives into unknown waters. By 1958 she sets a goal to make the 1960 Olympic team and, along with teammates and competitors, begins the arduous road to Rome. Losses, pain, fear, and fatigue accompany the rambunctious athlete as she finds her way through athletic training, school, and dealing with social gender expectations as she realizes she's gay. Tough Girl artfully weaves Wood's life story around the tale of her long walk on the Camino de Santiago, an effort to tap into her tough girl resilience so she can begin to accept the end of her long marriage. The ups and downs of Carolyn's childhood road to the Olympics as well as her journey on the Camino, will thrill and inspire readers.

## Laughter at the Academy

New York Times bestselling author Jenny Colgan returns to the beloved Scottish Highland town of Kirrinfeif, which readers first met in *The Bookshop on the Shore*, and adds a dash of London's bustling urban landscape. Lissa, is a nurse in a gritty, hectic London neighborhood. Always terribly competent and good at keeping it all together, she's been suffering quietly with PTSD after helping to save the victim of a shocking crime. Her supervisor quietly arranges for Lissa to spend a few months doing a much less demanding job in the little town of Kirrinfeif in the Scottish Highlands, hoping that the change of scenery will help her heal. Lissa will be swapping places with Cormack, an Army veteran who's Kirrinfeif's easygoing nurse/paramedic/all-purpose medical man. Lissa's never experienced small-town life, and Cormack's never spent more than a day in a big city, but it seems like a swap that would do them both some good. In London, the gentle Cormack is a

fish out of the water; in Kirrinief, the dynamic Lissa finds it hard to adjust to the quiet. But these two strangers are now in constant contact, taking over each other's patients, endlessly emailing about anything and everything. Lissa and Cormack discover a new depth of feeling for their profession and for each other. But what will happen when Lissa and Cormack finally meet?

### Hiking the Camino

Nunavut tigummiun! Hold on to the land! It was just fifty years ago that the territory of Alaska officially became the state of Alaska. But no matter who has staked their claim to the land, it has always had a way of enveloping souls in its vast, icy embrace. For William L. Iggiagruk Hensley, Alaska has been his home, his identity, and his cause. Born on the shores of Kotzebue Sound, twenty-nine miles north of the Arctic Circle, he was raised to live the traditional, seminomadic life that his Iñupiaq ancestors had lived for thousands of years. It was a life of cold and of constant effort, but Hensley's people also reaped the bounty that nature provided. In *Fifty Miles from Tomorrow*, Hensley offers us the rare chance to immerse ourselves in a firsthand account of growing up Native Alaskan. There have been books written about Alaska, but they've been written by Outsiders, settlers. Hensley's memoir of life on the tundra offers an entirely new perspective, and his stories are captivating, as is his account of his devotion to the Alaska Native land claims movement. As a young man, Hensley was sent by missionaries to the Lower Forty-eight so he could pursue an education. While studying there, he discovered that the land Native Alaskans had occupied and, to all intents and purposes, owned for millennia was being snatched away from them. Hensley decided to fight back. In 1971, after years of Hensley's tireless lobbying, the United States government set aside 44 million acres and nearly \$1 billion for use by Alaska's native

peoples. Unlike their relatives to the south, the Alaskan peoples would be able to take charge of their economic and political destiny. The landmark decision did not come overnight and was certainly not the making of any one person. But it was Hensley who gave voice to the cause and made it real. *Fifty Miles from Tomorrow* is not only the memoir of one man; it is also a fascinating testament to the resilience of the Alaskan Iliktusiat, the Alaskan spirit.

### Five Hundred Miles From You

In April 2015, Beth and Eric Jusino, laden with backpacks and nerves, walked out of a cathedral in the historic village of Le Puy, France, down a cobblestone street, and turned west. Seventy-nine days, a thousand miles, two countries, two mountain ranges, and three pairs of shoes later, they reached the Atlantic Ocean. More than two million pilgrims have walked the Way of Saint James, a long-distance hiking trail familiar to most Americans by its Spanish name, the Camino de Santiago. Each pilgrim has their own reason for undertaking the journey. For the Jusinos, it was about taking a break from the relentless pace of modern life and getting away from all their electronic devices. And how hard could it be, Beth reasoned, to walk twelve to fifteen miles a day, especially with the promise of real beds and local wine every night? Simple. It turned out to be harder than she thought. Beth is not an athlete, not into extreme adventures, and, she insists, not a risk-taker. She didn't speak a word of French when she set out, and her Spanish was atrocious. But she can tell a story. In *Walking to the End of the World*, she shares, with wry humor and infectious enthusiasm, the joys and travails of undertaking such a journey. She evocatively describes the terrain and the route's history, her fellow pilgrims, and the villages passed, and the unexpected challenges and charms of the experience. Beth's story is also about the assurance that an outdoor-based, boundary-stretching adventure is accessible to even the most unlikely of us. In her story, readers will feel that they, too, can get off their comfortable couches and do something unexpected and even spectacular. *Walking to the End of the World* is a warm-hearted and engaging story about an average couple going on an adventure together, tracing ancient paths first created in the tenth and eleventh centuries, paths that continue to inspire and reveal surprises to us today in the twenty-first.

## Talking to Addison

This book was inspired by stories about the life of Bass Reeves, a Deputy U.S. Marshal appointed by the court of Judge Isaac C. Parker. Although he was by all accounts an outstanding marshal, Bass Reeves remained somewhat undiscovered. There were several books written about Bass Reeves, which are detailed in the introduction of this book, but Bass never achieved the fame of marshals like Wyatt Earp. Even though this book is mostly a work of fiction, it is hoped this book will help gain Bass Reeves the attention he deserves. On May 26th, 2012, a monument will be dedicated to Bass Reeves near the site of the new U.S. Marshal's Museum in Fort Smith, Arkansas. Ten per cent of the proceeds of this book will be donated to that museum. Five per cent of the proceeds of this book will be donated to the monument fund. On the 10th day of May, 1875, Judge Isaac C. Parker presided over the court in Fort Smith for the first time. His court has been referred to as the greatest criminal court on earth. His court inspired the writing of the history of his court called ""Hell on the Border."" Many of the events depicted in this book were inspired by that book. But this book is not about Judge Parker's court. This book is about the marshals who risked their lives to clean up Indian Territory; which harbored some of the worst criminals ever depicted, most of whom were white men. ## Twenty Thousand Leagues Under the Sea

Trekking 500 miles on the ancient Camino de Santiago was not just an item for Russ Eanes to check off his bucket list. It was a journey he had dreamed of taking for decades. At age 61, with his children grown, he was too young to retire but wise enough to know that he needed to reorient the hurried pace of his life. He left his work and took a sabbatical to "reset" himself and the first step was to head to the Camino. With everything he needed in a 16-pound pack and, equipped with a set of seven simple principles, he took off from St. Jean Pied de Port, France, to walk, as pilgrims have for twelve centuries, across Spain, to realize his dream. It was the Walk of a Lifetime. On the remote Scottish island of Mure, the Christmas season is stark, windy, and icy—yet incredibly festive and beautiful. In the season for peace and good cheer, will Flora find the nerve to reveal the truth to her nearest and dearest? Will her erstwhile co-parent Joel think she's the bearer of glad tidings—or is this Christmas going to be as bleak as the Highlands in midwinter? Meanwhile Saif, a doctor and refugee from war-torn Syria is trying to enjoy his first western Christmas with his sons on this remote island where he's been granted asylum. His wife, however, is still missing, and her absence hangs over what should be a joyful celebration. Can the family possibly find comfort and joy without her? Travel to the beautiful northern edge of the world and join the welcoming community of Mure for a Highland Christmas you'll never forget! ## 500 Miles the Book

Washington Post national investigative reporter Carol Leonnig and White House bureau chief Philip Rucker, both Pulitzer Prize winners, provide the definitive insider narrative of Donald Trump's unique presidency with shocking new reporting and insight into its implications. "I alone can fix it." So went Donald J. Trump's march to the presidency on July 21, 2016, when he accepted the Republican presidential nomination in Cleveland, promising to restore what he described as a fallen nation. Yet over the subsequent years, as he has undertaken the actual work of the commander in chief, it has been hard to see beyond the daily chaos of scandal, investigation, and constant bluster. It would be all too easy to mistake Trump's first term for one of pure and uninhibited chaos, but there were patterns to his behavior and that of his associates. The universal value of the Trump administration is loyalty - not to the country, but to the president himself - and Trump's North Star has been the perpetuation of his own power, even when it meant imperiling our shaky and mistrustful democracy. Leonnig and Rucker, with deep and unmatched sources throughout Washington, D.C., tell of rages and frenzies but also moments of courage and perseverance. Relying on scores of exclusive new interviews with some of the most senior members of the Trump administration and other firsthand witnesses, the authors reveal the forty-fifth president up close, taking readers inside Robert Mueller's Russia investigation as well as the president's own hap-hazard but ultimately successful legal defense. Here for the first time certain officials who have felt honor-bound not to publicly criticize a sitting president or to divulge what they witnessed in a position of trust tell the truth for the benefit of history. This peerless and gripping narrative reveals President Trump at his most unvarnished and exposes how decision making in his administration has been driven by a reflexive logic of self-preservation and self-aggrandizement - but a logic nonetheless. This is the story of how an unparalleled president has scrambled to survive and tested the strength of America's democracy and its common heart as a nation.
