A Time to Betray

Nowhere does the ceaseless struggle to maintain democracy
in the face of political corruption come more alive than in Paul
Preston's magisterial history of modern Spain. The
culmination of a half-century of historical investigation, A
People Betrayed is not only a definitive history of modern
Spain but also a compelling narrative that becomes a lens for
understanding the challenges that virtually all democracies

have faced in the modern world. Whereas so many twentieth-century Spanish histories begin with Franco and the devastating Civil War, Paul Preston's magisterial work begins in the late nineteenth century with Spain's collapse as a global power, especially reflected in its humiliating defeat in 1898 at the hands of the United States and its loss of colonial territory. This loss hung over Spain in the early years of the twentieth century, its agrarian economic base standing in stark contrast to the emergence of England, Germany, and France as industrial powers. Looking back to the years prior to 1923, Preston demonstrates how electoral corruption infiltrated almost every sector of Spanish life, thus excluding the masses from organized politics and giving them a bitter choice between apathetic acceptance of a decrepit government or violent revolution. So ineffective was the Republic—which had been launched in 1873—that it paved the way for a military coup and dictatorship, led by Miguel Primo de Rivera in 1923, exacerbating widespread profiteering and fraud. When Rivera was forced to resign in 1930, his fall brought forth a succession of feeble governments, stoking rancorous tensions that culminated in the tragic Spanish Civil War. With astonishing detail, Preston describes the ravages that rent Spain in half between 1936 and 1939. Tracing the frightening rise of Francisco Franco, Preston recounts how Franco grew into Spain's most powerful military leader during the Civil War and how, after the war, he became a fascistic dictator who not only terrorized the Spanish population through systematic oppression and murder but also enriched corrupt officials who profited from severe economic plunder of Spain's working class. The dictatorship lasted through World War II—during which Spain sided with Mussolini and Hitler—and only ended decades later, in 1975, when Franco's death was followed by a painful yet bloodless transition to republican democracy. Yet, as

Preston reveals, corruption and political incompetence continued to have a corrosive effect on social cohesion into the twenty-first century, as economic crises, Catalan independence struggles, and financial scandals persist in dividing the country. Filled with vivid portraits of politicians and army officers, revolutionaries and reformers, and written in the “absorbing” (Economist) style for which Preston is so revered, *A People Betrayed* is the first historical work to examine the continuities of political unrest and national anxiety in Spain up until the present, providing a chilling reminder of just how fragile democracy remains in the twenty-first century.

"Paul Ortiz's lyrical and closely argued study introduces us to unknown generations of freedom fighters for whom organizing democratically became in every sense a way of life. Ortiz changes the very ways we think of Southern history as he shows in marvelous detail how Black Floridians came together to defend themselves in the face of terror, to bury their dead, to challenge Jim Crow, to vote, and to dream."—David R. The book poses a profound challenge to our understanding of the limits and possibilities of African American resistance in the early twentieth century. This analysis of how a politically and economically marginalized community nurtures the capacity for struggle speaks as much to our time as to 1919.”—Charles Payne, author of *I’ve Got the Light of Freedom*

A New York Times bestseller Ev told Jack he had to "chill out" with the deluge of media he was doing. "It's bad for the company," Ev said. "It's sending the wrong message." Biz sat between them, watching like a spectator at a tennis match. "But I invented Twitter," Jack said. "No, you didn't invent Twitter," Ev replied. "I didn't invent Twitter either. Neither did Biz. People don't invent things on the Internet. They simply expand on an idea that already exists." Despite all the coverage of Twitter's rise, Nick Bilton of The New York Times is the first journalist to tell the full story—a gripping drama of betrayed friendships and highstakes power struggles. The four founders—Evan Williams, Biz Stone, Jack Dorsey, and Noah Glass—made a dizzyingly fast transition from ordinary engineers to wealthy celebrities. They fought each other bitterly for money, influence, publicity, and control as Twitter grew larger and more powerful. Ultimately they all lost their grip on it. Bilton's unprecedented access and exhaustive reporting have enabled him to write an intimate portrait of four friends who accidentally changed the world, and what they all learned along the way.

Betrayed is the true story of two men on opposing sides in WWII, one a sergeant in the US Air Corps and the other a Nazi rocket engineer. The sergeant was shot down, betrayed, and imprisoned in Buchenwald, while the engineer, an SS-Major, became a national hero of the Third Reich. After the war, the records of both men were classified Top Secret and concealed by threats, denials, and misrepresentations. The US government refuted the sergeant's accurate account, while promoting a fabricated history for the engineer, Dr. Wernher von Braun, who became as famous in the US as he had been in Nazi Germany. Betrayed demonstrates how an unconstrained military intelligence operation disrupted the lives of American ex-POWs in the name of "National Security."

"Rothkopf does a brilliant job defining precisely how Trump has been aiding and abetting the enemy compelling."

--Financial Times Political historian and commentator David Rothkopf shows how Trump will be judged by history (Spoiler alert: not well) in Traitor. Donald Trump is unfit in almost every respect for the high office he holds. But what distinguishes him from every other bad leader the U.S. has had is that he has repeatedly, egregiously, betrayed his country. Regardless of how Senate Republicans have let him off the hook, the facts available to the public show that Trump has met every necessary standard to define his behavior as traitorous. He has clearly broken faith with the people of the country he was chosen to lead, starting long before he took office, then throughout his time in the White House. And we may not yet have seen the last of his crimes. But the story we know so far is so outrageous and disturbing that it raises a question that has never before been presented in American history: is the president of the United States the greatest threat this country faces in the world? We also need to understand how the country has historically viewed such crimes and how it has treated them in the past to place what has happened in perspective. After his examination of traitors including Benedict Arnold, Aaron Burr, and leaders of the Confederacy, David Rothkopf concludes that Donald Trump and his many abettors have committed the highest-level, greatest, most damaging betrayal in the history of the country.

Herbert Hoover's "magnum opus"—at last published nearly fifty years after its completion—offers a revisionist reexamination of World War II and its cold war aftermath and a sweeping indictment of the "lost statesmanship" of Franklin Roosevelt. Hoover offers his frank evaluation of Roosevelt's foreign policies before Pearl Harbor and policies during the war, as well as an examination of the war's consequences, including the expansion of the Soviet empire at war's end and the eruption of the cold war against the Communists.

When a bedraggled stranger turned up on the doorstep of Jason Harper's comfortable New England home, it takes him some time to accept that it is his brother who had disappeared over thirty years before on a bombing mission over Vietnam. Why had he not come home earlier? Where had he been? Why had he not told his own family that he had survived? Before Roy can begin to explain what he has gone through they are interrupted by a pair of men who seem intent on removing them both - and Jason's wife and child. Within the space of half an hour Jason's well-regulated, ordinary life is destroyed and his loyalty to his lost brother forces him to take his family on the run as he battles with the fact that the American government had 'hidden' hundreds of MIAs. When Abraham Lincoln delivered the Gettysburg Address in 1863, he had broader aims than simply rallying a war-weary nation. Lincoln realized that the Civil War had taken on a wider significance—that all of Europe and Latin America was watching to see whether the United States, a beleaguered model of democracy, would indeed “perish from the earth.” In *The Cause of All Nations*, distinguished historian Don H. Doyle explains that the Civil War was viewed abroad as part of a much larger struggle for democracy that spanned the Atlantic Ocean, and had begun with the American and French Revolutions. While battles raged at Bull Run, Antietam, and Gettysburg, a parallel contest took place abroad, both in the marbled courts of power and in the public square. Foreign observers held widely divergent views on the war—from radicals such as Karl Marx and Giuseppe Garibaldi who called on the North to fight for liberty and equality, to aristocratic monarchists, who hoped that the collapse of the Union would strike a death blow against democratic movements on both sides of the Atlantic. Nowhere were these monarchist dreams more ominous than in Mexico, where Napoleon III sought to implement his Grand Design for a Latin Catholic empire that would thwart the spread of Anglo-Saxon democracy and use the Confederacy as a buffer state. Hoping to capitalize on public sympathies abroad, both the Union and the Confederacy sent diplomats and special

agents overseas: the South to seek recognition and support, and the North to keep European powers from interfering. Confederate agents appealed to those conservative elements who wanted the South to serve as a bulwark against radical egalitarianism. Lincoln and his Union agents overseas learned to appeal to many foreigners by embracing emancipation and casting the Union as the embattled defender of universal republican ideals, the "last best hope of earth." A bold account of the international dimensions of America's defining conflict, *The Cause of All Nations* frames the Civil War as a pivotal moment in a global struggle that would decide the survival of democracy.

Thom Hartmann, the most popular progressive radio host in America and a New York Times bestselling author, explains how the Supreme Court has spilled beyond its Constitutional powers and how we the people should take that power back. Taking his typically in-depth, historically informed view, Thom Hartmann asks, What if the Supreme Court didn't have the power to strike down laws? According to the Constitution, it doesn't. From the founding of the republic until 1803, the Supreme Court was the final court of appeals, as it was always meant to be. So where did the concept of judicial review start? As so much of modern American history, it began with the battle between the Federalists and Anti-Federalists, and with *Marbury v. Madison*. Hartmann argues it is not the role of the Supreme Court to decide what the law is but rather the duty of the people themselves. He lays out the

history of the Supreme Court of the United States, since Alexander Hamilton's defense to modern-day debates, with key examples of cases where the Supreme Court overstepped its constitutional powers. The ultimate remedy to the Supreme Court's abuse of power is with the people--the ultimate arbiter of the law--using the ballot box. America does not belong to the kings and queens; it belongs to the people.

With her award-winning debut novel, *Purple Hibiscus*, Chimamanda Ngozi Adichie was heralded by the *Washington Post Book World* as the “21st century daughter” of Chinua Achebe. Now, in her masterly, haunting new novel, she recreates a seminal moment in modern African history: Biafra’s impassioned struggle to establish an independent republic in Nigeria during the 1960s. With the effortless grace of a natural storyteller, Adichie weaves together the lives of five characters caught up in the extraordinary tumult of the decade. Fifteen-year-old Ugwu is houseboy to Odenigbo, a university professor who sends him to school, and in whose living room Ugwu hears voices full of revolutionary zeal. Odenigbo’s beautiful mistress, Olanna, a sociology teacher, is running away from her parents’ world of wealth and excess; Kainene, her urbane twin, is taking over their father’s business; and Kainene’s English lover, Richard, forms a bridge between their two worlds. As we follow these intertwined lives through a military coup, the Biafran secession and the subsequent war, Adichie brilliantly evokes the promise, and intimately, the devastating disappointments that marked this time and place. Epic, ambitious and triumphantly realized, *Half of a Yellow Sun* is a more powerful, dramatic and intensely emotional picture of modern

Age of Betrayal

The culmination of a half-century of historical investigation, *A People Betrayed* is not only the definitive history of Spain from 1876 to 2016, but also an absorbing narrative that becomes a lens for understanding the challenges that all democracies have faced in the modern world. As *A People Betrayed* demonstrates, Spain's decrepit political system led to defeat in 1898 at the hands of the United States and cost Spain the last of its major colonies. Paul Preston shows how the humiliation and economic degradation following the loss of empire brought forth a succession of feeble governments, culminating in the tragic Spanish Civil War and the rise of Francisco Franco's fascist dictatorship. The first historical work to discuss the continuities of political unrest and national anxiety in Spain up to the present, this sweeping history illuminates the vicious political cycle that continues to create a stark gulf between the people and the elite political powers who rule over them.

internationally acclaimed historian Margaret MacMillan gives her own personal selection of figures of the past, women and men, some famous and some little-known, who stand out for her. Some have changed the course of history and even directed the currents of their times. Others are memorable for being risk-takers, adventurers, or observers. She looks at the concept of leadership through Bismarck and the unification of Germany; William Lyon MacKenzie King and the preservation of the Canadian Federation; Franklin Delano Roosevelt and the bringing of a unified United States into the Second World War. She also notes how leaders can make huge and often destructive mistakes, as in the cases of Hitler, Stalin, and Thatcher. Richard Nixon and Samuel de Champlain are examples of daring risk-takers who stubbornly went their own ways, often in defiance of their own societies. Then there are the dreamers, explorers, and adventurers, individuals like Fanny Parkes and Elizabeth Simcoe who manage to defy or ignore the constraints of their own societies. Finally, there are the observers, such as Babur, the first Mughal emperor of India, and Victor Klemperer, a Holocaust survivor, who kept the notes and diaries that bring the past to life. History's People is about the important and complex relationship between biography and history, individuals and their times.

The book also reveals the unrecognised heroism of those who stayed on during the genocide, volunteer peacekeepers and those who ran emergency medical care. Fifteen years on, this new edition examines the ongoing impact of the 1948 Genocide Convention and the shock waves Rwanda caused around the world. Based on fresh interviews with key players and newly-released documents, *A People Betrayed* is a shocking indictment of the way Rwanda is and was forgotten and how today it is remembered in the West.

Second novel by this chart topping author! #1 Crime Thriller #1 Conspiracies Thriller "A great spy thriller! MI5 don't know what's hit them, nor does a nation impacted by a sudden disaster. What one critic said: "I wish I could write a review as well as the author wrote this book to do it justice. Another magnificent literature masterpiece from Tim Heath. I really enjoy the concept of the story-line which I must recommend to anybody into thrillers and high tech espionage. The frightening thing about it is this could actually be fact one day!" The back cover text: "John awakes to find himself in a hospital bed with no memory of how he got there. Then the visions start. Destruction and death. A last chance. The only one who can save millions of people. He is no hero. Could he do what was being asked of him?" death? Once bad, always bad - but can a person perhaps change? Is it possible to redeem oneself - perhaps through a heroic act or through one's love for others? Can one person sacrifice himself for everyone? Is it ethical for the community to sacrifice one person's life for everyone else's survival? Is it ethical to lie or even to build a web of lies in order to save many from destruction? And yet despite - or perhaps because of? - these deep philosophical questions we are kept in suspense until the last page." "I have to say that I massively enjoyed this book from beginning to end. I enjoyed the plot, the characters, the ideas, the developing urgency of the story and the underlying theme of sacrifice. I enjoyed the mixture of covert teams operating against each other and the ensuing action well researched and thought through. In fact I can actually see something like this taking place one day - who knows, this may well be a Prophetic book!" "International espionage and sneaky twists provide the backdrop to some heart-wrenching decisions for the people we meet along the way. Not afraid to ask the big questions, *The Last Prophet* foretells a journey none of us would ever wish to make. If you like your thrillers with a dash of apocalypse and a side order of sacrifice, check this one out!" "Very good read. Couldn't put it down. Brilliant from beginning to end and very thought provoking. We are going to read it at our Book Club next time. Thank you Tim." "This is an exciting fast moving story. Just as you are beginning to understand what is going on, a new factor comes into play and new complexities appear. Right up to the end it is not clear which way it will go and I couldn't put the book down." "A thriller in the traditional sense, but with an edgy provoking setting. The use of tension and revelation perfectly balanced to keep you turning pages late into the night. Political intrigue, together with subtly revealed plot twists keep the reader alert and motivated to uncover the truth ahead of its telling. 3D characters challenge you to

MI5, MI6, the South African Secret Service, and the Chinese-what more could you ask for in an international spy thriller. You have shadow governments, or rogue governments-or is this really the normal operating procedures for nations who want to take down their enemies, in revenge for spying on them? I highly recommend this book."

In *The Death of the Grown-Up*, Diana West diagnosed the demise of Western civilization by looking at its chief symptom: our inability to become adults who render judgments of right and wrong. In *American Betrayal*, West digs deeper to discover the root of this malaise and uncovers a body of lies that Americans have been led to regard as the near-sacred history of World War II and its Cold War aftermath. Part real-life thriller, part national tragedy, *American Betrayal* lights up the massive, Moscow-directed penetration of America's most hallowed halls of power, revealing not just the familiar struggle between Communism and the Free World, but the hidden war between those wishing to conceal the truth and those trying to expose the increasingly official web of lies. *American Betrayal* is America's lost history, a chronicle that pits Franklin Delano Roosevelt, Harry Truman, Dwight David Eisenhower, and other American icons who shielded overlapping Communist conspiracies against the investigators, politicians, defectors, and others (including Senator Joseph McCarthy) who tried to tell the American people the truth. *American Betrayal* shatters the approved histories of an era that begins with FDR's first inauguration, when "happy days" are supposed to be here again, and ends

when we "win" the Cold War. It is here, amid the rubble, where Diana West focuses on the World War II--Cold War deal with the devil in which America surrendered her principles in exchange for a series of Big Lies whose preservation soon became the basis of our leaders' own self-preservation. It was this moral surrender to deception and self-deception, West argues, that sent us down the long road to moral relativism, "political correctness," and other cultural ills that have left us unable to ask the hard questions: Does our silence on the crimes of Communism explain our silence on the totalitarianism of Islam? Is Uncle Sam once again betraying America? In *American Betrayal*, Diana West shakes the historical record to bring down a new understanding of our past, our present, and how we have become a nation unable to know truth from lies.

A People's History of the Second World War unearths the fascinating history of the war as fought "from below." Until now, the vast majority of historical accounts have focused on the regular armies of the allied powers. Donny Gluckstein shows that an important part of the fighting involved people's militias struggling against not just fascism, but also colonialism, imperialism, and capitalism itself. Gluckstein argues that despite this radical element, which was fighting on the ground, the allied governments were more interested in creating a new order to suit their interests.
