Affixes. One method of understanding the meanings of new words is to analyze the different parts of the word and the meanings of those parts. Many new words are formed by adding an affix to the beginning or end of a Latin or Greek root or root word. When affixes are added to the beginning of roots or root words, they are called prefixes. For example, the most common prefix is un-, which means

Linear B is a syllabic script that was used for writing Mycenaean Greek, the earliest attested form of Greek. The script predates the Greek alphabet by several centuries. The oldest Mycenaean writing dates to about 1450 BC. It is descended from the older Linear A, an undeciphered earlier script used for writing the Minoan language, as is the later Cypriot syllabary, which also recorded Greek.
