Mindful Money

For every wound, there is a scar. Raised on fame and fortune, Liam McGuire is a spoiled man-child. His handsome face blinds the world, but I see through it to what he is inside. Ugly. When his tour bus rolls off the road, Liam's rushed to the hospital where I work. A jagged scar runs the length of his face, ruining his good looks and jeopardizing his career. As his nurse, I'm around him more than I'd like, but the more I get to know him, the more I realize the world wasn't blind to him. I was. Liam McGuire feels deeply and loves wildly, throwing himself into everything he does with more passion than I ever dreamed possible. With that intensity aimed at me, the scars slashed across my own heart start to heal. He is fire and I've been cold my whole life. Am I ready to thaw? Or is life better-safer-when I'm cold and numb?

Bringing It to the Table

An unforgettable novel based on the life of Ricky Richard Anywar, who at age fourteen was forced to fight as a soldier in the guerrilla army of notorious Ugandan warlord Joseph Kony Soldier Boy begins with the story of Ricky Richard Anywar, abducted in 1989 to fight with Joseph Kony's rebel army in the Ugandan civil war (one of Africa's longest running conflicts). Ricky is trained, armed, and forced to fight government soldiers alongside his brutal kidnapers, but never stops dreaming of escape. The story continues twenty years later, with a fictionalized character named Samuel, a boy deathly afraid of trusting anyone ever again. Samuel is representative of the thousands of child soldiers Ricky eventually helped rehabilitate as founder of the internationally acclaimed charity Friends of Orphans. Working closely with Ricky himself, debut author Keely Hutton has written an eye-opening book about a boy's unbreakable spirit and indomitable courage in the face of unimaginable horror. This title has Common Core connections.

"Written by a pediatrician, *Eat Baby, Healthy* is a soft, rhyming story from a baby's point of view that celebrates the health and emotional benefits of prenatal nutrition and breastfeeding."--Amazon.com.

The Hating Game

Set in the 1870s, the same period as Wharton's *The Age of Innocence*, *The Buccaneers* is about five wealthy American girls denied entry into New York Society because their parents' money is too new. At the suggestion of their clever governess, the girls sail to London, where they marry lords, earls, and dukes who find their beauty charming—and their wealth extremely useful. After Wharton's death in 1937, *The Christian Science Monitor* said, "If it could have been completed, *The Buccaneers* would doubtless stand among the richest and most sophisticated of Wharton's novels." Now, with wit and

imagination, Marion Mainwaring has finished the story, taking her cue from Wharton's own synopsis. It is a novel any Wharton fan will celebrate and any romantic reader will love. This is the richly engaging story of Nan St. George and guy Thwarte, an American heiress and an English aristocrat, whose love breaks the rules of both their societies.

The Buccaneers

Only a farmer could delve so deeply into the origins of food, and only a writer of Wendell Berry's caliber could convey it with such conviction and eloquence. Drawn from more than thirty years of work, this collection is essential reading for all who care about what they eat.

As the first of the nation's 78 million baby boomers begin reaching age 65 in 2011, they will face a health care workforce that is too small and woefully unprepared to meet their specific health needs. Retooling for an Aging America calls for bold initiatives starting immediately to train all health care providers in the basics of geriatric care and to prepare family members and other informal caregivers, who currently receive little or no training in how to tend to their aging loved ones. The book also recommends that Medicare, Medicaid, and other health plans pay higher rates to boost recruitment and retention of geriatric specialists and care aides. Educators and health professional groups can use Retooling for an Aging America to institute or increase formal education and training in geriatrics. Consumer groups can use the book to advocate for improving the care for older adults. Health care professional and occupational groups can use it to improve the quality of health care jobs.

Retooling for an Aging America

John L. Austin was one of the leading philosophers of the twentieth century. The William James Lectures presented Austin's conclusions in the field to which he directed his main efforts on a wide variety of philosophical problems. These talks became the classic *How to Do Things with Words*. For this second edition, the editors have returned to Austin's original lecture notes, amending the printed text where it seemed necessary. Students will find the new text clearer, and, at the same time, more faithful to the actual lectures. An appendix contains literal transcriptions of a number of marginal notes made by Austin but not included in the text. Comparison of the text with these annotations provides new dimensions to the study of Austin's work.

The Plague

A New York Times Bestseller! From the racetrack to the battlefield—dauntless, fearless, and exemplar of Semper Fi—she was Reckless, "pride of the Marines." A Mongolian mare who was bred to be a racehorse, Ah-Chim-Hai, or Flame-of-the-Morning, belonged to a young boy named Kim-Huk-Moon. In order to pay for a prosthetic leg for his sister, Kim made the difficult decision to sell his beloved companion. Lieutenant Eric Pedersen purchased the bodacious mare and renamed her Reckless, for the Recoilless Rifles Platoon, Anti-Tank Division, of the 5th Marines she'd be joining. The four-legged equine braved minefields and hailing shrapnel to deliver ammunition to her division on the frontlines. In one day alone, performing fifty-one trips up and down treacherous terrain, covering a distance of over thirty-five miles, and rescuing wounded comrades-in-arms, Reckless demonstrated her steadfast devotion to the Marines who had become her herd. Despite only measuring about thirteen hands high, this pint-sized equine became an American hero. Reckless was awarded two Purple Hearts for her valor and was officially promoted to staff sergeant twice, a distinction never bestowed upon an animal

before or since. Author Robin Hutton has reignited excitement about this nearly forgotten legend, realizing the Sgt. Reckless Memorial Monument at the National Museum of the Marine Corps, completed in July 2013, and now spurring the creation of a second memorial at Camp Pendleton, California, where Reckless lived out the rest of her days. The paperback edition includes a new foreword by General James F. Amos, 35th Commandant of the U.S. Marine Corps. It will appeal to fans of Laura Hillenbrand's *Seabiscuit*, Elizabeth Letts' *The Eighty Dollar Champion*, and the feature film *War Horse*.

Beyond Us

The political era one is living through always feels messy and fragmented from the inside. But looking back from the future, the first two decades of the 21st century will come to be seen as the moment when the politics of culture and identity rose to challenge the previous politics of left and right. David Goodhart's searing analysis considers this shift through his novel paradigm of the "nowhere" class and the "somewhere" class. Members of the "Nowhere" class dominate our culture and society. They tend to do well at school, then usually move from home to a boarding university in their late teens and on to a career in the professions that might take them to a capital city or even abroad for a year or two. Such people have portable "achieved" identities, based on educational and career success, which makes them generally comfortable with new places and people. The "Somewhere" people are by definition more rooted and have ascribed identities based on group belonging and particular places, which is why they often find rapid change disturbing. One core group of Somewheres are often "left behind" - mainly older white working class men with little education. They have lost economically with the decline of well paid jobs for people with little education and culturally, too, with the disappearance of a distinctive working-class culture and the marginalization of their social conservatism in the public conversation. However Somewhere ambivalence about recent social trends spreads far beyond this core group and is shared by many in all social classes. The broad ideology of Nowhere people can be characterized as "progressive individualism." By contrast, the Somewheres are more socially conservative by instinct. This book will contend that the Nowhere people have counted for too much in the past generation and populist parties, such as the Tea Party, have emerged in part as a democratic counter-balance to that dominance. In a democracy the Somewheres cannot, however, be ignored.

Death by Auction

Over a quarter million underage British boys fought on the Allied front lines of the Great War, but not all of them fought on the battlefield—some fought beneath it, as revealed in this middle-grade historical adventure about a deadly underground mission. *Secret Soldiers* follows the journey of Thomas, a thirteen-year-old coal miner, who lies about his age to join the Claykickers, a specialized crew of soldiers known as "tunnelers," in hopes of finding his

missing older brother. Thomas works in the tunnels of the Western Front alongside three other soldier boys whose constant bickering and inexperience in mining may prove more lethal than the enemy digging toward them. But as they burrow deeper beneath the battlefield, the boys discover the men they hope to become and forge a bond of brotherhood. *Secret Soldiers* is another stunning story of strength, perseverance, and love from Keely Hutton.

Rebel

From USA Today bestselling author Meghan Quinn comes a forbidden romance about an Irish rebel who falls in love with the wrong girl. Dear Diary, I might have gotten myself into a wee bit of trouble-and I'm not talking about the "court mandated community service," or "therapy sessions from bashing a bloke in the head" kind of trouble. I wish it were that simple. Nope. I'm talking about the "falling in love with one of my client's daughters," kind of trouble . . . The kind of problem I can't talk my way out of when the truth gets out. How I ended up with her phone is a long story-and when she called to get it back, I took things a bit too far. One innocent exchange wound up leading to so much more. Fun, new, and totally immune to my charm, Sutton is different. And I had no idea she was the daughter of Foster Green. Blame it on the dark colored stout running through my veins, pushing me toward one bad decision after another. Pushing me toward her even though I know right from wrong; even though she's my client's daughter. Dating her might be the best or worst decision I've ever made. Only time, whiskey, and one more roll around the mattress with her will tell. Roark

How to Do Things with Words

The understanding of how to reduce risk factors for mental disorders has expanded remarkably as a result of recent scientific advances. This study, mandated by Congress, reviews those advances in the context of current research and provides a targeted definition of prevention and a conceptual framework that emphasizes risk reduction. Highlighting opportunities for and barriers to interventions, the book draws on successful models for the prevention of cardiovascular disease, injuries, and smoking. In addition, it reviews the risk factors associated with Alzheimer's disease, schizophrenia, alcohol abuse and dependence, depressive disorders, and conduct disorders and evaluates current illustrative prevention programs. The models and examination provide a framework for the design, application, and evaluation of interventions intended to prevent mental disorders and the transfer of

knowledge about prevention from research to clinical practice. The book presents a focused research agenda, with recommendations on how to develop effective intervention programs, create a cadre of prevention researchers, and improve coordination among federal agencies.

Beyond Words

The house next door to Sameer's had been empty for as long as he could remember. The family had gone away when the war began. But now they were back, and he was ready to have fun with his new playmate. Together they could climb the big olive tree that overlooked both their gardens, and eat the delicious olives it produced. The only problem was that Muna, the little girl next door, didn't want to play and she didn't want to share the olives. She said they belonged to her family alone—that is, until one fateful night when lightning struck the tree. Poignantly told by award-winning author Elsa Marston and with beautiful paintings from award-winning illustrator Claire Ewart, *The Olive Tree* follows two children as they learn to share and work together by looking past their differences. It shows young readers that compassion and understanding lie at the heart of all friendships.
