In this article, I'll be showing you how to make a simple yet effective static electricity generator. Basically, this device allows you to carry a constant static charge on your body and discharge it on anything grounded or of opposite polarity. The electricity generated is around 8-10 kV, at a very low current. The shock is enough to startle your friends, just like a static shock from a

Since the time of fire, man has had arguments - rare or well done? Of course, arguments depend on your point of view, or in the case of husbands and wives, what the wife thinks. Some arguments are never-ending. Over the centuries, there have been some doozies that have kept philosophy students and teachers debating. To be included on this list of Arguments That Can't Be Won, the argument
