object of the sport is to propel a small hard ball into a series of 'holes' with as few strokes as possible, using a variety of wood or iron-tipped sticks called golf clubs.

### **Finger - Wikipedia**

The most common shoulder injuries involve the muscles, ligaments, cartilage, and tendons, rather than the bones. Common shoulder injuries include rotator cuff tears, shoulder impingement, and dislocation. Athletes, such as tennis or football players, and people who work in occupations that require frequent, heavy, over-head lifting are most susceptible to shoulder injuries.
