"Are you looking for great ways to include more water in your diet?" "What about fantastic homemade fruit infused waters that take only 5 minutes to make, and are chock full of easy to absorb vitamins and minerals?" Did you know a handful of blueberries a day can not only aid in reducing belly fat, lower blood pressure, protect the heart and brain, boost memory but also act as a natural anti-depressant? They also contain the highest antioxidant capacity of all fruit - which has been found to stifle aging and free radical damage. Making your own fruit infused waters at home allows you to receive the full benefits of each fruit and herb ingredient, as well as the added benefit of knowing exactly what you are consuming. Commercial Vitamin Waters commonly seen in stores and vending machines contain a lot of nasty ingredients (artificial and 'natural' flavourings, artificial colours, artificial sweeteners, synthetic vitamins and preservatives). While these may 'taste great', you are left paying a small fortune for what is essentially glorified sugar water. Given their sugar content, they are truly no better than having a soda. We all need to drink more water,

events she's seen while walking the dog, sitting in a park with her children, or driving around city streets. From stumpy potted houseplants to intricate and delicate flower arrangements, *My Life in Plants* is a heartfelt, honest memoir that intertwines the complex nature of houseplants with a journey of self-discovery. From Katie Vaz, author of *Don't Worry, Eat Cake*, the beloved *Make Yourself Cozy*, and *The Escape Manual for Introverts*, comes *My Life in Plants*. Her newest book tells the story of her life through the thirty-nine plants that have played both leading and supporting roles, from her childhood to her wedding day. Plants include a homegrown wildflower bouquet wrapped in duct tape that she carried on stage at age three, to a fragrant basil plant that brought her and her kitchen back to life after grief. The stories are personal, poignant, heartwarming, and relatable, and will prompt readers to recall plants of their own that have been witness to both the amazing moments of life and the ordinary ones. This illustrated memoir covers the simplicity of home, the sharpness of loss, the lesson of learning to be present, and the journey of finding your way.
