The Bully Pulpit

The New York Times bestselling book about the early development, growth, and exercise of leadership from Pulitzer Prize-winning author Doris Kearns Goodwin "should help us raise our expectations of our national leaders, our country, and ourselves" (The Washington Post). "After five decades of magisterial output, Doris Kearns Goodwin leads the league of presidential historians" (USA TODAY). In her "inspiring" (The Christian Science Monitor) Leadership, Doris Kearns Goodwin draws upon the four presidents she has studied most closely—Abraham Lincoln, Theodore Roosevelt, Franklin D. Roosevelt, and Lyndon B. Johnson (in civil rights)—to show how they recognized leadership qualities within themselves and were recognized as leaders by others. By looking back to their first entries into public life, we encounter them at a time when their paths were filled with confusion, fear, and hope. Leadership tells the story of how they all collided with dramatic reversals that disrupted their lives and threatened to shatter forever their ambitions. Nonetheless, they all emerged fitted to confront the contours and dilemmas of their times. At their best, all four were guided by a sense of moral purpose. At moments of great challenge, they were able to summon their talents to enlarge the opportunities and lives of others. Does the leader make the times or do the times make the leader? "If ever our nation needed a short course on presidential leadership, it is now" (The Seattle Times). This seminal work provides an accessible and essential road map for aspiring and established leaders in every field. In today's polarized world, these stories of authentic leadership in times of apprehension and fracture take on a singular urgency. "Goodwin's volume deserves much praise—it is insightful, readable, compelling: Her book arrives just in time" (The Boston Globe).

Leadership

When historian Goodwin was six years old, her father taught her how to keep score for [their] team, the Brooklyn Dodgers, which forged a lifelong bond between father and daughter. Set in the suburbs of New York in the 1950s, Wait Till Next Year is a coming-of-age memoir in the era of Jackie Robinson, Pee Wee Reese and Duke Snider, when baseball truly was a national pastime that brought whole communities together. With her radio by her side and scorecard to hand, she recreates the postwar era, when the corner store was a place to share stories and neighborhoods were equally divided between Dodger, Giant, and Yankee fans. Weaved between the games and the seasons, Goodwin tells the story of a changing America [from the lunacy of the Cold War alarm drills to McCarthy and the Rosenberg trials] as well as her own loss of innocence encapsulated by her mother's death, her father's lapse into despair and the Dodger's departure from Brooklyn in 1957 following the destruction of the iconic Ebbets Field stadium. Poignant, unsentimental and deeply eloquent, Wait Till Next Year is a profound memoir about childhood and loss, baseball, and the power of sport to bind families and heal loss and reveal as metaphor the evolving heart of a nation.

Leadership

One of the Best Books of the Year as chosen by The New York Times, The Washington Post, The Economist, Time, USA TODAY, Christian Science Monitor, and more. "A tale so gripping that one questions the need for fiction when real life is so plump with drama and intrigue" (Associated Press). Doris Kearns Goodwin's *The Bully Pulpit* is a dynamic history of the first decade of the Progressive era, that tumultuous time when the nation was coming unseamed and reform was in the air. The story is told through the intense friendship of Theodore Roosevelt and William Howard Taft—a close relationship that strengthens both men before it ruptures in 1912, when they engage in a brutal fight for the presidential nomination that divides their wives, their children, and their closest friends, while crippling the progressive wing of the Republican Party, causing Democrat Woodrow Wilson to be elected, and changing the country's history. *The Bully Pulpit* is also the story of the muckraking press, which arouses the spirit of reform that helps Roosevelt push the government to shed its laissez-faire attitude toward robber barons, corrupt politicians, and corporate exploiters of our natural resources. The muckrakers are

portrayed through the greatest group of journalists ever assembled at one magazine—Ida Tarbell, Ray Stannard Baker, Lincoln Steffens, and William Allen White—teamed under the mercurial genius of publisher S.S. McClure. Goodwin’s narrative is founded upon a wealth of primary materials. The correspondence of more than four hundred letters between Roosevelt and Taft begins in their early thirties and ends only months before Roosevelt’s death. Edith Roosevelt and Nellie Taft kept diaries. The muckrakers wrote hundreds of letters to one another, kept journals, and wrote their memoirs. The letters of Captain Archie Butt, who served as a personal aide to both Roosevelt and Taft, provide an intimate view of both men. The Bully Pulpit, like Goodwin’s brilliant chronicles of the Civil War and World War II, exquisitely demonstrates her distinctive ability to combine scholarly rigor with accessibility. It is a major work of history—an examination of leadership in a rare moment of activism and reform that brought the country closer to its founding ideals.

Leaders

In today’s organizations, it is no longer the CEO who acts as the sole strategic leader. From single individuals to larger teams and networks, leaders at all levels are infiltrating the formal organizational structure and making strategic leadership an increasingly complex endeavor. In *Strategic Leadership for Turbulent Times*, Kriger and Zhovtobryukh shrewdly describe the true experiences of what employees encounter as internal and external environments evolve, and how to uphold the personal and organizational values which affect both human and social capital. They examine how leadership strategies are used in real situations and highlight the importance of managerial wisdom for sustainable growth. Finally, they offer advice for strategic leaders on leading effectively in highly turbulent economic, social, technological, and multicultural times.

Leading in Turbulent Times

An instant national bestseller! Stanley McChrystal, the retired US Army general and bestselling author of *Team of Teams*, profiles thirteen great leaders to show that leadership is not what you think it is—and never was. Stan McChrystal served for thirty-four years in the US Army, rising from a second lieutenant in the 82nd Airborne Division to a four-star general, in command of all American and coalition forces in Afghanistan. During those years he worked with countless leaders and pondered an ancient question: “What makes a leader great?” He came to realize that there is no simple answer. McChrystal profiles thirteen famous leaders from a wide range of eras and fields—from corporate CEOs to politicians and revolutionaries. He uses their stories to explore how leadership works in practice and to challenge the myths that complicate our thinking about this critical topic. With Plutarch’s *Lives* as his model, McChrystal looks at paired sets of leaders who followed unconventional paths to success. For instance. . . . Walt Disney and Coco Chanel built empires in very different ways. Both had public personas that sharply contrasted with how they lived in private. . . Maximilien Robespierre helped shape the French Revolution in the eighteenth century; Abu Musab al-Zarqawi led the jihadist insurgency in Iraq in the twenty-first. We can draw surprising lessons from them about motivation and persuasion. . . Both Boss Tweed in nineteenth-century New York and Margaret Thatcher in twentieth-century Britain followed unlikely roads to the top of powerful institutions. . . Martin Luther and his future namesake Martin Luther King Jr., both local clergymen, emerged from modest backgrounds to lead world-changing movements. Finally, McChrystal explores how his former hero, General Robert E. Lee, could seemingly do everything right in his military career and yet lead the Confederate Army to a devastating defeat in the service of an immoral cause. Leaders will help you take stock of your own leadership, whether you’re part of a small team or responsible for an entire nation.

Winner of the Lincoln Prize Acclaimed historian Doris Kearns Goodwin illuminates Abraham Lincoln's political genius in this highly original work, as the one-term congressman and prairie lawyer rises from obscurity to prevail over three gifted rivals of national reputation to become president. On May 18, 1860, William H. Seward, Salmon P. Chase, Edward Bates, and Abraham Lincoln waited in their hometowns for the results from the Republican National Convention in Chicago. When Lincoln emerged as the victor, his rivals were dismayed and angry. Throughout the turbulent 1850s, each had energetically sought the presidency as the conflict over slavery was leading inexorably to secession and civil war. That Lincoln succeeded, Goodwin demonstrates, was the result of a character that had been forged by experiences that raised him above his more privileged and accomplished rivals. He won because he possessed an extraordinary ability to put himself in the place of other men, to experience what they were feeling, to understand their motives and desires. It was this capacity that enabled Lincoln as president to bring his disgruntled opponents together, create the most unusual cabinet in history, and marshal their talents to the task of preserving the Union and winning the war. We view the long, horrifying struggle from the vantage of the White House as Lincoln copes with incompetent generals, hostile congressmen, and his raucous cabinet. He overcomes these obstacles by winning the respect of his former competitors, and in the case of Seward, finds a loyal and crucial friend to see him through. This brilliant multiple biography is centered on Lincoln's mastery of men and how it shaped the most significant presidency in the nation's history.

China and the True Jesus

In this culmination of five decades of acclaimed studies in presidential history, Doris Kearns Goodwin offers an illuminating exploration of the origin, uncertain growth, and finally, the exercise of fully developed leadership. Are leaders born or made? Where does ambition come from? How does adversity affect the growth of leadership? Does the man make the times or does the times make the man? In *Leadership* Goodwin draws upon four of the presidents she has studied - Abraham Lincoln, Theodore Roosevelt, Franklin D. Roosevelt and Lyndon B. Johnson - to show how they first recognized leadership qualities within themselves, and were recognized as leaders by others. By looking back to their first entry into public life, when their paths were filled with confusion, hope, and fear, we can share their struggles and follow their development into leaders. *Leadership* tells the story of how they all collided with dramatic reversals that disrupted their lives and threatened to forever shatter their ambitions. Nonetheless, they all emerged fitted to confront the contours and dilemmas of their times. No common pattern describes the trajectory of leadership. Although set apart in background, abilities and temperament, they shared a fierce ambition, a hunger to succeed beyond expectations. All four, at their best, were guided by a sense of moral purpose that led them at moments of great challenge to summon their talents to enlarge the opportunities and lives of others. This seminal work provides a roadmap for aspiring and established leaders. In today's polarized world, these stories of authentic leadership in time of surpassing fracture and fear take on a singular urgency.

Agile Leadership for Turbulent Times

Turbulent times occur due to crises, which can happen at any time and in any organisation. Even if the firm is doing well today, it does not eradicate the possibility of the firm being thrown into trouble in the nearest future. No one can predict the future. While leaders of a company are enjoying the good times, they should equally consider the possibility of turbulent times; as a result, they should prepare for eventualities. They should get themselves ready for those times that crisis will be the order of the day. No one wishes for crises, but the crisis does not come by wishing for them; they come a random and the causes can be internal or external. Preparing ahead of time can prevent the problems of under preparation for crises. A company and its management should understand how to manage crises situations when such arise. The leaders in a company should be visionary enough to get them set for any problem that may arise.

Caring Leadership in Turbulent Times

With a new foreword: The New York Times' bestselling biography of President Lyndon Johnson from the Pulitzer Prize-winning author of *Team of Rivals*. Featuring a 2018 foreword by the Pulitzer Prize-winning political historian that celebrates a reappraisal of Lyndon Johnson's legacy five decades after his presidency, from the vantage point of our current, profoundly altered political culture and climate, Doris Kearns Goodwin's extraordinary and insightful biography draws from meticulous research in addition to the author's time spent working at the White House from 1967 to 1969. After Johnson's term ended, Goodwin remained his confidante and assisted in the preparation of his memoir. In *Lyndon Johnson and the American Dream*, she traces the 36th president's life from childhood to his early days in politics, and from his leadership of the Senate to his presidency, analyzing his dramatic years in the White House, including both his historic domestic triumphs and his failures in Vietnam. Drawing on personal anecdotes and candid conversation with Johnson, Goodwin paints a rich and complicated portrait of one of our nation's most compelling politicians in "the most penetrating, fascinating political biography I have ever read" (The New York Times).

to embrace in order to overcome hurt and disappointment in a turbulent environment and foster more caring and effective educational organizations. Few attempts have been made to write a book about women's work from the perspective of those in senior leadership roles in education; others have written about it but not experienced it firsthand. This book illuminates the controversial debate between women and gender in education and challenges assumptions about equity and the caring and democratic nature of education. It contributes to a broader understanding and knowledge of the complexities of leadership work within education, which in turn can lead to improvement in professional relationships as well as organizational effectiveness. The book contains enlightening and compelling stories about the unique and shared experiences of people navigating turbulence within an organization. Author Mary Green draws on her career spent teaching and learning to provide a unique Canadian perspective and context. She offers a rigorous self, social, historical, and political reflection of educators, who despite experiencing particular challenges, draw purpose from faith in the possibilities and potential of more caring practice in education. The content will prove useful to those committed to infusing more humanity into work in education with reference to individuals, institutions, and the social and political challenges in the field. Specifically, this book is relevant to graduate students in faculties of education, policy makers, principals, other administrators, and organizational leaders. Universal issues of power and politics reveal interconnections between the personal and the global workplace, underscoring the importance of care in the workplace.

Research-based and tested in the crucible of the marketplace Turbulent Times Leadership for Sales Managers shows the reader how to boost sales in any economic condition. Connellan's research uncovered skill sets in which leaders of high performing sales reps are 22% more effective than leaders of low performing reps. This book lays out in a step-by-step fashion how to put those three skill sets to work.

The American Spirit

Athletic CEOs: Leadership in Turbulent Times is a book about high-performing transformational leaders operating in turbulent environments. These CEOs do not lead by the book: they may not praise their subordinates, provide positive feedback or regularly celebrate small wins. Yet they have created formidable enterprises that deliver sustainable growth, have elevated their companies' employees to new levels, have set new standards for their industries and have advanced their regions. Most remarkably, in spite of their prominence, these leaders continue to reinvent themselves. Having studied them for a decade, Stanislav Shekshnia, Veronika Zagieva and Alexey Ulanovsky developed a model of athletic leadership which describes the leadership agendas, practices, outcomes and outputs of these leaders as well as unique attributes that make them effective.

About the Original Book: Goodwin leaves no stone unturned as she investigates the lives and legacies of Abraham Lincoln, Theodore Roosevelt, Franklin Roosevelt, and Lyndon Johnson. Leadership is an exploration into what makes a great leader and the personal struggles each of these four men faced on their paths toward and during the presidency. Each man faced a crucible of hardship and each man was faced with sweeping social change during their time in the Oval Office. While no man followed the same path to leadership, or led in the same manner, she discovers there are many traits these great leaders shared along the way. **DISCLAIMER:** This book is intended as a companion to, not a replacement for, Leadership: In Turbulent Times. Twilight Empress

In our increasingly complex world, the turbulent forces affecting educators have become vastly more dynamic, creating complex challenges but, perhaps paradoxically, also unique opportunities. Reframing how to understand the drivers of turbulence, Applying Turbulence Theory to Educational Leadership in Challenging Times provides aspiring and practicing educational leaders with the theory and tools for understanding Turbulence Theory and its application to school contexts. Renowned author Steven Jay Gross explores how you can apply turbulence theory to respond to critical incidents, as well as how to address the tensions across various stakeholders, including the central office, principals, teachers, students, families, and communities. With over 20 innovative, case-based examples and discussion questions, this book explores how turbulence can be leveraged or minimized to increase creative opportunity and address dilemmas in schools.

Leadership

In Ethical Leadership in Turbulent Times, Gerald M. Pops combines leadership and organizational theory with early twentieth-century history to model public leadership that is both monumentally effective and classically ethical. The book draws on the career of General George C. Marshall, including his character virtues and ethical practices in two world wars and his efforts to keep the peace and promote economic recovery following World War II.

Living Leadership

Perseverance is designed to offer guidance, challenge, clarity and consolation to all the people doing their work day - by - day. The topics are not the usual

inspiring, feel good, rah - rah messages. Instead, Wheatley focuses on the situations, feelings, and challenges that can, over time, cause us to give up or lose our way. Perseverance is a discipline - it's a day - by - day decision not to give up. Therefore, we have to notice the moments when we feel lost or overwhelmed or betrayed or exhausted and note how we respond to them. And we have to notice the rewarding times, when we experience the joy of working together on something hard but worthwhile, when we realize we've made a small difference. Each topic is a brief essay, meant to be read as needed. (The book is not intended to be read through all at once.) You can thumb through the book and find what you need or what attracts you in the moment. Every essay names a behavior or dynamic, puts it into a broader human or timeless perspective, and offers ways for the reader to either live with or transcend that dynamic. The reader is also challenged by the direct voice of the book. Wheatley wants people to be able to see themselves, their situation, and to assume responsibility for changing the situation or their reaction to it if it's one that troubles them. (There deliberately are no examples of other people - the reader is the example; their personal experience is the only case material.) The content (essays and quotes) is drawn from many spiritual traditions and diverse cultures. The book is deeply grounded spiritually and also quite inclusive - accessing human experience and wisdom from many sources. Both this grounding and inclusiveness support the essential message - human being throughout time and history have persevered. We're just the most recent ones to face these challenges.
