Elevation

In this spectacular New York Times bestselling father/son collaboration that "barrels along like a freight train" (Publishers Weekly), Stephen King and Owen King tell the highest of high-stakes stories: what might happen if women disappeared from the world of men? In a future so real and near it might be now, something happens when women go to sleep: they become shrouded in a cocoon-like gauze. If they are awakened, if the gauze wrapping their bodies is disturbed or violated, the women become feral and spectacularly violent. And while they sleep they go to another place, a better place, where harmony prevails and conflict is rare. One woman, the mysterious "Eve Black," is immune to the blessing or curse of the sleeping disease. Is Eve a medical anomaly to be studied? Or is she a demon who must be slain? Abandoned, left to their increasingly primal urges, the men divide into warring factions, some wanted to kill Eve, some to save her. Others exploit the chaos to wreak their own vengeance on new enemies. All turn to violence in a suddenly all-male world. Set in a small Appalachian town whose primary employer is a woman's prison, *Sleeping Beauties* is a wildly provocative, gloriously dramatic father-son collaboration that feels particularly urgent and relevant today.

Now an AT&T Audience Original Series The fabulously suspenseful and "smashing"

(The New York Times Book Review) final novel in the Bill Hodges trilogy from the #1 New York Times bestselling author of Mr. Mercedes and Finders Keepers! For nearly six years, in Room 217 of the Lakes Region Traumatic Brain Injury Clinic, Brady Hartsfield has been in a persistent vegetative state. A complete recovery seems unlikely for the insane perpetrator of the “Mercedes Massacre,” in which eight people were killed and many more maimed for life. But behind the vacant stare, Brady is very much awake and aware, having been pumped full of experimental drugsscheming, biding his time as he trains himself to take full advantage of the deadly new powers that allow him to wreak unimaginable havoc without ever leaving his hospital room. Brady Hartsfield is about to embark on a new reign of terror against thousands of innocents, hell-bent on taking revenge against anyone who crossed his path—with retired police detective Bill Hodges at the very top of that long list.

The Wild Wisdom of Weeds

SAM DOLAN is a young man coming to terms with his life in the process and aftermath of making his first film. He has a difficult relationship with his father, B-movie actor Booth Dolan—a boisterous, opinionated, lying lothario whose screen legacy falls somewhere between cult hero and pathetic. Allie, Sam’s dearly departed mother, was a woman whose only fault, in Sam’s eyes, was her eternal affection for his father. Also included in the cast of indelible characters: a precocious, frequently violent half-sister; a conspiracy-theorist second wife; an Internet-famous roommate; a contractor who can’t stop expanding his house; a happy-go-lucky college girlfriend and her husband, a retired Yankees catcher; the morose producer of a true-crime show; and a slouching indie-film legend. Not to mention a tragic sex monster. Unraveling the tumultuous, decades-spanning story of the Dolan family’s friends, lovers, and adversaries, Double Feature is about letting go of everything—regret, resentment, dignity, moving pictures, the dead—and taking it again from the top. Against the backdrop of indie filmmaking, college campus life, contemporary Brooklyn, and upstate New York, Owen King’s epic debut novel combines propulsive storytelling with mordant wit and brims with a deep understanding of the trials of ambition and art, of relationships and life, and of our attempts to survive it all.

The Fever

Madcap, zany noir set on the mean streets of post-World War II San Francisco. Sammy "Two Toes" Tiffin is the bartender in a scruffy gin joint, with street connections that make him the go-to guy for just about everything. When one of his schemes goes south and his lady vanishes, Sammy follows a tortuous trail from Chinatown to Telegraph Hill to a hidden forest enclave in a desperate search to find his girl. Meanwhile, a suspicious flying object has been spotted by the Pacific Coast near Mount Ranier, followed by a mysterious plane crash in Roswell, New Mexico but the real weirdness is happening in the City by the Bay.

Cape Fear

Roberta Anderson, while searching for firewood in the forest, stumbles upon a

buried ship and with the help of her onetime lover, Jim Gardener, excavates an artifact that changes the townspeople of Haven.

The Deep

In oppressive darkness, successful novelist Stephen King sits on his throne mapping out a new story of the macabre. But there is a problem; he's stuck. Writer's block has set in. But soon familiar voices offer advice and King begins to type: the flow comes and goes just as distractions and inspirations surface - then disappear then reappear. Real life begins to merge with his creative stream of consciousness and his creations start to mirror and comment on his own existence in a terrifying downward spiral. This is the script of an original Play by Lee Gambin.

Crazy Love

A riveting new novel from New York Times bestselling and Edgar Award-winning author C. J. Box. The ties that bind can burn you. Former sheriff's investigator Cassie Dewell is trying to start her life over as in private practice. She's her own boss and answers to no one, and that's just the way she likes it after the past few tumultuous years. All that certainty changes when an old friend calls in a favor: she wants Cassie to help exonerate a man accused of assaulting a young woman from an influential family. Against her own better judgment, Cassie agrees. But out by the Bitterroot Mountains of Montana, twisted family loyalty runs as deep as the ties to the land, and there's always something more to the story. The Kleinsassers have ruled this part of Montana for decades, and the Iron Cross Ranch is their stronghold. They want to see Blake Kleinsasser, the black sheep of the family, put away forever for the assault. As Cassie attempts to uncover the truth, she must fight against a family whose roots are tangled and deadly—as well as the ghosts of her own past that threaten to bring her down. With *The Bitterroots*, master storyteller C. J. Box delivers another searing novel of loyalty, lies, and lethal retribution.

Fate's Past

Now in mass-market paperback from the national bestselling author of *The Troop*—which Stephen King raved “scared the hell out of me and I couldn't put it down....old-school horror at its best”—an utterly terrifying novel that pits the mysteries of *The Abyss* against the horrors of *The Shining*. A strange plague called the 'Gets is decimating humanity on a global scale. It causes people to forget—small things at first, like where they left their keys...then the not-so-small things like how to drive, or the letters of the alphabet. Then their bodies forget how to function involuntarily...and there is no cure. But now, far below the surface of the Pacific Ocean, deep in the Mariana Trench, an heretofore unknown substance hailed as “ambrosia” —a universal healer, from initial reports—has been discovered. It may just be the key to eradicating the 'Gets. In order to study this phenomenon, a special research lab, the Trieste, has been built eight miles under the sea's surface. But when the station goes incommunicado, a brave few descend through the lightless fathoms in hopes of unraveling the mysteries lurking at those crushing depths...and perhaps to encounter an evil blacker than anything one

could possibly imagine. “Fans of unflinching bleakness and all-out horror will love this novel....Each new shock is freshly disturbing” (Publishers Weekly, starred review).

Mr. Mercedes

Matthew Stanyer fears the worst when he reports his parents missing. His father, Joseph Stanyer, has been struggling to cope with his wife Evie, whose dementia is rapidly worsening. When their bodies are found at Blackwater Lake, a local beauty spot, the inquest rules the deaths as a murder-suicide. A conclusion that's supported by the note Joseph leaves for his son. Grief-stricken, Matthew begins to clear his parents' house of decades of compulsive hoarding, only to discover the dark enigmas hidden within its walls. Ones that lead Matthew to ask: why did his father choose Blackwater Lake to end his life? What other secrets do its waters conceal? A short (26,000 words) novella, Blackwater Lake examines one man's determination to uncover his family's troubled past.

At the Foot of the Story Tree

The Wild Wisdom of Weeds is the only book on foraging and edible weeds to focus on the thirteen weeds found all over the world, each of which represents a complete food source and extensive medical pharmacy and first-aid kit. More than just a field guide to wild edibles, it is a global plan for human survival. When Katrina Blair was eleven she had a life-changing experience where wild plants spoke to her, beckoning her to become a champion of their cause. Since then she has spent months on end taking walkabouts in the wild, eating nothing but what she forages, and has become a wild-foods advocate, community activist, gardener, and chef, teaching and presenting internationally about foraging and the healthful lifestyle it promotes. Katrina Blair's philosophy in The Wild Wisdom of Weeds is sobering, realistic, and ultimately optimistic. If we can open our eyes to see the wisdom found in these weeds right under our noses, instead of trying to eradicate an “invasive,” we will achieve true food security. The Wild Wisdom of Weeds is about healing ourselves both in body and in spirit, in an age where technology, commodity agriculture, and processed foods dictate the terms of our intelligence. But if we can become familiar with these thirteen edible survival weeds found all over the world, we will never go hungry, and we will become closer to our own wild human instincts—all the while enjoying the freshest, wildest, and most nutritious food there is. For free! The thirteen plants found growing in every region across the world are: dandelion, mallow, purslane, plantain, thistle, amaranth, dock, mustard, grass, chickweed, clover, lambsquarter, and knotweed. These special plants contribute to the regeneration of the earth while supporting the survival of our human species; they grow everywhere where human civilization exists, from the hottest deserts to the Arctic Circle, following the path of human disturbance. Indeed, the more humans disturb the earth and put our food supply at risk, the more these thirteen plants proliferate. It's a survival plan for the ages. Including over one hundred unique recipes, Katrina Blair's book teaches us how to prepare these wild plants from root to seed in soups, salads, slaws, crackers, pestos, seed breads, and seed butters; cereals, green powders, sauerkrauts, smoothies, and milks; first-aid concoctions such as tinctures, teas, salves, and soothers; self-care/beauty products including shampoo, mouthwash, toothpaste (and brush), face

masks; and a lot more. Whether readers are based at home or traveling, this book aims to empower individuals to maintain a state of optimal health with minimal cost and effort.

The Troop

The panic unleashed by a mysterious contagion threatens the bonds of family and community in a seemingly idyllic suburban community. The Nash family is close-knit. Tom is a popular teacher, father of two teens: Eli, a hockey star and girl magnet, and his sister Deenie, a diligent student. Their seeming stability, however, is thrown into chaos when Deenie's best friend is struck by a terrifying, unexplained seizure in class. Rumors of a hazardous outbreak spread through the family, school and community. As hysteria and contagion swell, a series of tightly held secrets emerges, threatening to unravel friendships, families and the town's fragile idea of security. A chilling story about guilt, family secrets and the lethal power of desire, *THE FEVER* affirms Megan Abbott's reputation as "one of the most exciting and original voices of her generation."* *Laura Lippman

The Running Man

FATE'S PAST is the story of a couple, Cameron Harrison and Carrie Fields. While driving in rural Louisiana, Cameron and Carrie notice that their environment has changed--a faint cloud distorts the empty road, the clocks blink "00:00," and a feeling of lifelessness creeps through their veins. For miles, they do not see any other cars, animals, or people. Then their experiences splinter. Carrie hears sounds that Cameron cannot hear. Cameron sees things that Carrie cannot see. As Cameron and Carrie wander through the unfamiliar landscape, they are literally hunted by their biggest regrets, forcing the two to separate. And in confronting their regrets, Carrie and Cameron must come to grips with who they were in order to escape their suffering, find one another, and take the next step in their journey together.

Postmortem

This is the way the world ends: with a nanosecond of computer error in a Defense Department laboratory and a million casual contacts that form the links in a chain letter of death. And here is the bleak new world of the day after: a world stripped of its institutions and emptied of 99 percent of its people. A world in which a handful of panicky survivors choose sides -- or are chosen. A world in which good rides on the frail shoulders of the 108-year-old Mother Abigail -- and the worst nightmares of evil are embodied in a man with a lethal smile and unspeakable powers: Randall Flagg, the dark man. In 1978 Stephen King published *The Stand*, the novel that is now considered to be one of his finest works. But as it was first published, *The Stand* was incomplete, since more than 150,000 words had been cut from the original manuscript. Now Stephen King's apocalyptic vision of a world blasted by plague and embroiled in an elemental struggle between good and evil has been restored to its entirety. *The Stand : The Complete And Uncut Edition* includes more than five hundred pages of material previously deleted, along with new material that King added as he reworked the manuscript for a new generation.

It gives us new characters and endows familiar ones with new depths. It has a new beginning and a new ending. What emerges is a gripping work with the scope and moral complexity of a true epic. For hundreds of thousands of fans who read *The Stand* in its original version and wanted more, this new edition is Stephen King's gift. And those who are reading *The Stand* for the first time will discover a triumphant and eerily plausible work of the imagination that takes on the issues that will determine our survival.

Mr. Murder

A magician called Valerian must save his own life within those few days or pay the price for the pact he made with evil so many years ago. But alchemy and sorcery are no match against the demonic power pursuing him. Helping him is his servant, Boy, a child with no name and no past. The quick-witted orphan girl, Willow, is with them as they dig in death fields at midnight, and as they are swept into the sprawling blackness of a subterranean city on a journey from which there is no escape. Praise for *The Book of Dead Days*: "Beautifully paced and sometimes blood-soaked. . . . His fiancée married another man during his coma and people clamor for him to solve their problems. The Bitterroots

This Shirley Jackson Award-winning novel is “a true surreal phantasmagoria . . . [a] gothic supernatural” horror story set in the decadent world of British rock (Chelsea Quinn Yarbro). When the young members of a British acid-folk band are compelled by their manager to record their unique music, they hole up at Wylding Hall, an ancient country house with dark secrets. There they create the album that will make their reputation, but at a terrifying cost: Julian Blake, the group's lead singer, disappears within the mansion and is never seen or heard from again. Now, years later, the surviving musicians, along with their friends and lovers—including a psychic, a photographer, and the band's manager—meet with a young documentary filmmaker to tell their own versions of what happened that summer. The Stand

A charming historical fantasy with a tender love story at its core from the author of

Unnatural Magic.

The Dead Zone

Winner of the 2015 Edgar Award for Best Critical/Biographical! Follow the footsteps of the father of American horror fiction. Edgar Allan Poe was an oddity: his life, literature, and legacy are all, well, odd. In *Poe-Land*, J. W. Ocker explores the physical aspects of Poe's legacy across the East Coast and beyond, touring Poe's homes, examining artifacts from his life—locks of his hair, pieces of his coffin, original manuscripts, his boyhood bed—and visiting the many memorials dedicated to him. Along the way, Ocker meets people from a range of backgrounds and professions—actors, museum managers, collectors, historians—who have dedicated some part of their lives to Poe and his legacy. *Poe-Land* is a unique travelogue of the afterlife of the poet who invented detective fiction, advanced the emerging genre of science fiction, and elevated the horror genre with a mastery over the macabre that is arguably still unrivaled today.

Sleeping Beauties

Learn the Words. Get the blood. Rule the world. The Ustari Cycle starts here. From the "exhilarating, powerful, and entertaining" (*Guardian*) storyteller of the Avery Cates series comes a gritty supernatural thriller featuring a pair of unlikely heroes caught up in the underground world of blood magic. Magicians: they are not good people. The ethics in a world of blood are gray—and an underground strata of blood magicians has been engineering disasters for centuries in order to acquire enough fuel for their spells. Although in the modern world these mages stay in the shadows, their exploits have become no less bloody. Still, some practitioners use the Words and a swipe of the blade to cast simpler spells, such as Charms and Cantrips to gas up \$1 bills so they appear to be \$20s. Lem Vonnegan and his sidekick Mags fall into this level of mage, hustlers and con men all. Lem tries to be ethical by using only his own blood, by not using Bleeders or "volunteers." But it makes life hard. Soon they might have to get honest work. When the pair encounter a girl who's been kidnapped and marked up with magic runes for a ritual spell, it's clear they're in over their heads. Turning to Lem's estranged Master for help, they are told that not only is the girl's life all but forfeit, but that the world's preeminent mage, Mika Renar, has earth-shattering plans for her—and Lem just got in the way. With the fate of the world on the line, and Lem both spooked and intrigued by the mysterious girl, the other nominate him to become the huckleberry who'll take down Renar. But even if he, Mags, and the simpletons who follow him prevail, they're dealing with the kind of power that doesn't understand defeat, or mercy. (The first portion of *We Are Not Good People* was originally published in an altered form as *Trickster* by Pocket Books).

Finders Keepers

From legendary master storyteller Stephen King, a riveting story about "an ordinary man in an extraordinary condition rising above hatred" (*The Washington Post*) and bringing the fictional town of Castle Rock, Maine together—a "joyful, uplifting" (*Entertainment Weekly*) tale about finding common ground despite deep-

rooted differences, “the sign of a master elevating his own legendary game yet again” (USA TODAY). Although Scott Carey doesn’t look any different, he’s been steadily losing weight. There are a couple of other odd things, too. He weighs the same in his clothes and out of them, no matter how heavy they are. Scott doesn’t want to be poked and prodded. He mostly just wants someone else to know, and he trusts Doctor Bob Ellis. In the small town of Castle Rock, the setting of many of King’s most iconic stories, Scott is engaged in a low grade—but escalating—battle with the lesbians next door whose dog regularly drops his business on Scott’s lawn. One of the women is friendly; the other, cold as ice. Both are trying to launch a new restaurant, but the people of Castle Rock want no part of a gay married couple, and the place is in trouble. When Scott finally understands the prejudices they face—including his own—he tries to help. Unlikely alliances, the annual foot race, and the mystery of Scott’s affliction bring out the best in people who have indulged the worst in themselves and others. “Written in masterly Stephen King’s signature translucent...this uncharacteristically glimmering fairy tale calls unabashedly for us to rise above our differences” (Booklist, starred review). Elevation is an antidote to our divisive culture, an “elegant whisper of a story” (Kirkus Reviews, starred review), “perfect for any fan of small towns, magic, and the joys and challenges of doing the right thing” (Publishers Weekly, starred review).
