Russia & World Order

The American Political Science Review

Sea Power

2006 Scholar's Bookshelf reprint edition. A still-indispensable study of the role of sea power in modern Japanese history, with special perspectives on the character of Admiral of the Fleet Count Togo and the close identification of his spirit and the spirit of Japan. The work traces Japanese naval thought back to Perry's time and forward through all the major actions at the Yalu, the Pescadores and Formosa, Port Arthur, the Yellow Sea, and Tsushima, documenting the growth of Japanese naval power, Togo's central role in strategy and technology, and the coming to international naval power of Japan as the twentieth

century dawned. First published in 1936, the work includes the author's warning about the ""hand-writing on the wall"" represented by Japan's emergence at Tsushima.

The Evolution of Russian and Soviet Sea Power, 1853-1953

New Perspectives in Twentieth-century Polish Literature

Continuing, and to some extent expanding on, the bibliographies of Stephan Horak (i.e., Russia, the USSR and Eastern Europe), this volume, the first of two (the second to cover Eastern Europe), presents an annotated bibliography of representative titles selected from The American Bibliography of Slavic and East European Studies and Books in Print. Titles are divided into sections by major subject area and are consecutively numbered. Each entry includes complete bibliographic information, a descriptive annotation and information, if available, on where the book was reviewed. Annotation copyright by Book News, Inc., Portland, OR

A History of Sea Power

The Influence of Sea Power Upon the French Revolution and Empire, 1793-1812

Sea Power in the Second World War

Sea Power in the Mediterranean

The Background of Eastern Sea Power

"Russian-Ottoman relations in the Levant :the Dashkov archive draws on the virtually unknown Dashkov collection in the Russian State Historical Archive, St. Petersburg, to examine key aspects of Imperial Russia's complex relationship with the Ottoman Empire in the first half of the nineteenth century."--Back cover.

Togo and the Rise of Japanese Sea Power

Admiral Gorshkov has transformed the Soviet fleet into a world sea power for the first time in Russian history. He is Russia's most brilliant naval strategist of all time. He has created the modern Soviet navy. His book examines the main components of sea power among which attention is focused on the naval fleet of the present day, capable of conducting operations and solving strategic tasks in different regions of the world's oceans, together with other branches of the armed forces and independently

Russia and the Road to Appeasement

This is the first book of its kind to draw together information on the major events in Russian history from 1695 to 1917 - covering the eventful period from the accession of Peter the Great to the fall of Nicholas II. Not only is a vast amount of material on key events and topics brought together, but the book also contains fascinating background material to convey the reality of life in the period.

Great Britain and Sea Power, 1815-1853

Focusing on the Black Sea fleet between 1827-1841, this book assesses Russia's naval strength against other Mediterranean powers, especially the Ottoman Empire, arguing their limitations came from geographic, political and economic considerations. Primary and secondary sources are utilized.

The British National Bibliography

Full color and black and white images throughout. Historical study covers the service in the Asia-Pacific region of the U.S. Seventh Fleet during the 20th and 21st centuries. The Fleet saw combat in nearly every major battle of World War II in the Pacific as well as in the Cold War conflicts in Korea and Vietnam. Today the Fleet acts as a deterrence to aggressor nations in the region, provides humanitarian relief in times of disaster, participates in joint and combined exercises, and conducts counter-terrorism and anti-pirate operations.

Ar Or

Admiral S.G. Gorshkov, den sovjetiske flådes chef 1956-1985, er mere end nogen anden ansvarlig for moderne sovjetisk flådestrategi, ligesom han har skabt den moderne sovjetiske flåde. I hans bog gennemgås de vigtigste elementer af sovjetisk maritim strategi, og den sovjetiske flådes muligheder for at løse opgaver af strategisk art på verdenshavene samt den sovjetiske flådes evne til at gennemføre operationer alene eller sammen med andre dele af Sovjetunionens væbnede styrker i forskellige områder af verden.

The Sea Power of the State

This bibliography, first published in 1957, provides citations to North American academic literature on Europe, Central Europe, the Balkans, the Baltic States and the former Soviet Union. Organised by discipline, it covers the arts, humanities, social sciences, life sciences and technology.

Longman Companion to Imperial Russia, 1689-1917

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and

the Congressional Globe (1833-1873)

The United States and World Sea Power

Professor Liska argumenterer for en medinddragning af Rusland - selv et sovjetiseret Rusland - i et udvidet "Vesten", som efter de Gaulle og Vietnam trues mere og mere af indre forfald end af ydre farer og mere af økonomisk aggression fra det såkaldte "Syd" end af østlandenes militærmagt

A History of Russian and Soviet Sea Power

Russia and the Former Soviet Union

From one of the most admired admirals of his generation -- and the only admiral to serve as Supreme Allied Commander at NATO -- comes a remarkable voyage through all of the world's most important bodies of water, providing the story of naval power as a driver of human history and a crucial element in our current geopolitical path. From the time of the Greeks and the Persians clashing in the Mediterranean, sea power has determined world power. To an extent that is often underappreciated, it still does. No one understands this better than Admiral Jim Stavridis. In *Sea Power*, Admiral Stavridis takes us with him on a tour of the world's oceans from the admiral's chair, showing us how the geography of the oceans has shaped the destiny of nations, and how naval power has in a real sense made the world we live in today, and will shape the world we live in tomorrow. Not least, *Sea Power* is marvelous naval history, giving us fresh insight into great naval engagements from the battles of Salamis and Lepanto through to Trafalgar, the Battle of the Atlantic, and submarine conflicts of the Cold War. It

is also a keen-eyed reckoning with the likely sites of our next major naval conflicts, particularly the Arctic Ocean, Eastern Mediterranean, and the South China Sea. Finally, Sea Power steps back to take a holistic view of the plagues to our oceans that are best seen that way, from piracy to pollution. When most of us look at a globe, we focus on the shape of the of the seven continents. Admiral Stavridis sees the shapes of the seven seas. After reading Sea Power, you will too. Not since Alfred Thayer Mahan's legendary The Influence of Sea Power upon History have we had such a powerful reckoning with this vital subject.

East Europe

Sea Power

Attempts to advance the understanding of Russia by listing, categorizing, and describing some 600 recent books concerning Russia, the Soviet Union, and the post-Soviet Russian Federation. All books included were published between 1991 and 1996 (inclusive).

Asia

The American Bibliography of Slavic and East European Studies for 1993
