## Capital City

A year ago, Cal Thompson was a college freshman more interested in meeting girls and partying than in attending biology class. Now, after a fateful encounter with a mysterious woman named Morgan, biology has become, literally, Cal's life. Cal was infected by a parasite that has a truly horrifying effect on its host. Cal himself is a carrier, unchanged by the parasite, but he's infected the girlfriends he's had since Morgan. All three have turned into the ravaging ghouls Cal calls Peeps. The rest of us know them as vampires. It's Cal's job to hunt them down before they can create more of their kind. . . . Bursting with the sharp intelligence and sly humor that are fast becoming his trademark, Scott Westerfeld's novel is an utterly original take on an archetype of horror.

## Shattered Warrior

"You can be lonely anywhere, but there is a particular flavor to the loneliness that comes from living in a city, surrounded by thousands of strangers. The Lonely City is a roving cultural history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we're not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olivia Laing explores these questions by travelling deep into the work and lives of some of the century's most original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography, part dazzling work of cultural criticism, The Lonely City is not just a map, but a celebration of the state of loneliness. It's a voyage out to a strange and sometimes lovely island, adrift from the larger continent of human experience, but visited by many - millions, say - of souls"--

### **The Lonely City**

The irresistible novel that was adapted into a major motion picture starring Leonardo DiCaprio. The Khao San Road, Bangkok -- first stop for the hordes of rootless young Westerners traveling in Southeast Asia. On Richard's first night there, in a low-budget guest house, a fellow traveler slashes his wrists, bequeathing to Richard a meticulously drawn map to "the Beach." The Beach, as Richard has come to learn, is the subject of a legend among young travelers in Asia: a lagoon hidden from the sea, with white sand and coral gardens, freshwater falls surrounded by jungle, plants untouched for a thousand years. There, it is rumored, a carefully selected international few have settled in a communal Eden. Haunted by the figure of Mr. Duck -- the name by which the Thai police have identified the dead man -- and his own obsession with Vietnam movies, Richard sets off with a young French couple to an island hidden away in an archipelago forbidden to tourists. They discover the Beach, and it is as beautiful and idyllic as it is reputed to be. Yet over time it becomes clear that Beach culture, as Richard calls it, has troubling, even deadly, undercurrents. Spellbinding and hallucinogenic, *The Beach* by Alex Garland -- both a national bestseller and his debut -- is a highly accomplished and suspenseful novel that fixates on a generation in their twenties, who, burdened with the legacy of the preceding generation and saturated by popular culture, long for an unruined landscape, but find it difficult to experience the world firsthand.

## **The Last Days**

Unflinching dispatches of an embedded war reporter covering ISIS and the unlikely alliance of forces who came together to defeat it. The battle to defeat ISIS was an unremittingly brutal and dystopian struggle, a multi-sided war of gritty local commandos and militias. Mike Giglio takes readers to the heart of this shifting, uncertain conflict, capturing the essence of a modern war. At its peak, ISIS controlled a self-styled "caliphate" the size of Great Britain, with a population cast into servitude that numbered in the millions. Its

territory spread across Iraq and Syria as its influence stretched throughout the wider world. Giglio tells the story of the rise of the caliphate and the ramshackle coalition--aided by secretive Western troops and American airstrikes--that was assembled to break it down village by village, district by district. The story moves from the smugglers, traffickers, and jihadis working on the ISIS side to the victims of its zealous persecution and the local soldiers who died by the thousands to defeat it. Amid the battlefield drama, culminating in a climactic showdown in Mosul, is a dazzlingly human portrait of the destructive power of extremism, and of the tenacity and astonishing courage required to defeat it.

### **City of Strife**

A world that exists in the shadow of our own . . . the thrilling conclusion to John Twelve Hawks's Fourth Realm trilogy, *The Golden City* is packed with the knife-edge tension, intriguing characters, and startling plot twists that made *The Traveler* and *The Dark River* international hits. John Twelve Hawks's previous novels about the mystical Travelers and the Brethren, their ruthless enemies, generated an extraordinary following around the world. *The Washington Post* wrote that *The Traveler* “portrays a Big Brother with powers far beyond anything Orwell could imagine . . .” and *Publishers Weekly* hailed the series as “a saga that's part *A Wrinkle in Time*, part *The Matrix* and part Kurosawa epic.” Internet chat rooms and blogs have overflowed with speculation about the final destiny of the richly imagined characters fighting an epic battle beneath the surface of our modern world. In *The Golden City*, Twelve Hawks delivers the climax to his spellbinding epic. Struggling to protect the legacy of his Traveler father, Gabriel faces troubling new questions and relentless threats. His brother Michael, now firmly allied with the enemy, pursues his ambition to wrest power from Nathan Boone, the calculating leader of the Brethren.

And Maya, the Harlequin warrior pledged to protect Gabriel at all costs, is forced to make a choice that will change her life forever. ## As the Shadow Rises

“This superbly succinct and incisive book couldn’t be more timely or urgent.” —Michael Sorkin, author of *All Over the Map* Our cities are changing. Around the world, more and more money is being invested in buildings and land. Real estate is now a \$217 trillion dollar industry, worth thirty-six times the value of all the gold ever mined. It forms sixty percent of global assets, and one of the most powerful people in the world—the president of the United States—made his name as a landlord and developer. Samuel Stein shows that this explosive transformation of urban life and politics has been driven not only by the tastes of wealthy newcomers, but by the state-driven process of urban planning. Planning agencies provide a unique window into the ways the state uses and is used by capital, and the means by which urban renovations are translated into rising real estate values and rising rents. *Capital City* explains the role of planners in the real estate state, as well as the remarkable power of planning to reclaim urban life.

### **Shatter the Sky**

In *All the Nations Under Heaven*, Frederick Binder and David Reimers trace the shifting tides of New York's ethnic past, from its beginnings as a Dutch trading outpost to the present age where Third World immigration has given the population a truly global character. *All the Nations Under Heaven* explores the processes of cultural adaptation to life in New York, giving a lively account of immigrants new and old, and of the streets and neighborhoods they claimed and transformed. *All the Nations Under Heaven* provides a comprehensive look at the unique cultural identities that have wrought changes on the city over nearly four centuries since Europeans first landed on the Atlantic shore. While detailing the various efforts to retain a cultural heritage, the book also looks at how ethnic and racial groups have interacted - and clashed - over the years. From the influx of Irish and Germans in the nineteenth century to the recent arrival of Caribbean and Asian ethnic groups in large numbers, *All the Nations Under Heaven* explores the social, cultural, political, and economic lives of immigrants as they sought to form their own communities and struggled to define their identities within the growing heterogeneity of New York.

### **Mirror's Edge**

In the heart of the calumet region, hardworking Hammond helped build America. Originally known as State Line Slaughterhouse, the city began as no more than a meatpacking plant for nearby Chicago. In time, the city grew, and at its industrial height, trains, chains, cigars, shirts, candy, nuts, player pianos, commercial wallpaper, concrete roof slabs, gutters, boilers, potato digging devices, screws

and steel products poured from its many factories. Meanwhile, its many racetracks and casinos earned it the title of "Atlantic City on the Lake." The city also nurtured Jean Shepherd of A Christmas Story fame and was even home to an early NFL team. Hammond-born journalist Joseph S. Pete explores bygone landmarks like Phil Smidt's, Madura's Danceland, the State Theatre, the Woodmar Mall and the W.B. Conkey factory, all of which now live only in legend.

### **County and City Data Book**

Prize-winning and bestselling historian Jean Edward Smith tells the “rousing” (Jay Winik, author of 1944) story of the liberation of Paris during World War II—a triumph achieved only through the remarkable efforts of Americans, French, and Germans, racing to save the city from destruction. Following their breakout from Normandy in late June 1944, the Allies swept across northern France in pursuit of the German army. The Allies intended to bypass Paris and cross the Rhine into Germany, ending the war before winter set in. But as they advanced, local forces in Paris began their own liberation, defying the occupying German troops. Charles de Gaulle, the leading figure of the Free French government, urged General Dwight Eisenhower to divert forces to liberate Paris. Eisenhower’s advisers recommended otherwise, but Ike wanted to help position de Gaulle to lead France after the war. And both men were concerned about partisan conflict in Paris that could leave the communists in control of the city and the national government. Neither man knew that the German commandant, Dietrich von Choltitz, convinced that the war was lost, schemed to surrender the city to the Allies intact, defying Hitler’s orders to leave it a burning ruin. In *The Liberation of Paris*, Jean Edward Smith puts “one of the most moving moments in the history of the Second World War” (Michael Korda) in context, showing how the decision to free the city came at a heavy price: it slowed the Allied

momentum and allowed the Germans to regroup. After the war German generals argued that Eisenhower's decision to enter Paris prolonged the war for another six months. Was Paris worth this price? Smith answers this question in a "brisk new recounting" that is "terse, authoritative, [and] unsentimental" (The Washington Post).
