There are 63 word searches in all. Some are conventional in which the words go only up or down, across or diagonally; and some are unconventional. An example of an unconventional word search is on the front cover with the word "example" marked throughout. Aside from the unconventional style of connecting letters; some of the word searches come with fun quizzes or clues to answer before finding the words in the puzzle. Many also come with just a list of words to find like the more common older style. Hope you enjoy the uniqueness of some of the themes in this book.

In his quest for total domination, Darth Sidious compiled six legendary dark side texts detailing Sith history and philosophy by Sorzus Syn, Darth Malgus, Darth Bane, Mother Talzin, Darth Plagueis, and himself. Together these documents form the Book of Sith. Over the centuries, the texts were passed among Force users who left handwritten notes and annotations in the margins, including Darth Vader, Yoda, Mace Windu, and Luke Skywalker, among others.
