The Body

How do societies negotiate the apparently competing agendas of environmental protection and social justice? Why do some countries perform much better than others? Democracy in the Woods answers these questions by explaining the trajectories of forest and land rights - and the fate of forest-dependent peasants - in the forested regions of India, Tanzania, and Mexico. To organize a comparative inquiry that straddles the fields of comparative politics, historical institutionalism, and policy studies, this book develops a political economy of institutions framework. It shows that differences in structures of political intermediation - venues that help peasant groups and social movements engage in political and policy processes - explain the varying levels of success in combining the pursuits of social justice and environmental conservation. The book challenges the age-old notion that populist policies produce uniformly deleterious environmental consequences that must be mitigated via centralized systems of environmental regulation. It shows instead that the national leaders and dominant political parties that must compete for popular support in the political arena are more likely to fashion interventions that pursue conservation of forested landscapes without violating the rights of forest-dependent people. Mexico demonstrates the potential for win-win outcomes, India continues to stumble on both environmental and social questions despite longstanding traditions of popular mobilization for forestland rights, and Tanzania's government has failed its forest-dependent people despite a lucrative wildlife tourism sector. This book's political analysis of the control over and use of nature opens up new avenues for reflecting on nature in the Anthropocene.

In the Lake of the Woods

For dreamers of escaping to a cozy cabin in the great outdoors, *Your Cabin in the Woods* is a classic work that not only makes this a reality, but also imparts a deeper appreciation of nature and homebuilding. Author Conrad E. Meinecke has been writing about living the simply life in the wilderness for over 70 years with *Your Cabin in the Woods* and *Cabin Craft and Outdoor Living*. For the first time, these books are combined into a deluxe two-color vintage package. In prose both practical and inspirational, Meinecke details how to turn your cabin dream into a reality, such as choosing land, using tools, and the basics of construction. He provides hand-drawn floor plans for a variety of cabins, from a simple two-room to a more complex long house; the best way to build fireplaces, both indoors and out; and instructions for basic furniture, lighting, and other touches that make a cabin feel like home. Throughout are Meinecke's thoughts on ways to enjoy your new-found space, from hearty fireplace recipes to the types of wood for a perfect fire and the beauty found in birdsong. Instructional as it may be, the book's enduring appeal owes in large part to its warmly engaging tone and firm belief in the restorative power of nature and the satisfaction of hard work. He writes, "Take full enjoyment in the building. Take time out to rest. Most city folks seem always to rush things through. Why? Lay off until tomorrow. Take an afternoon nap. Stop the clock for the weekend. Get off to an early start in the cool of tomorrow morning. You may be crowded in your work

Travis Shelton is seventeen the summer he wanders into the woods onto private property outside his North Carolina hometown, discovers a grove of marijuana large enough to make him some serious money, and steps into the jaws of a bear trap. After hours of passing in and out of consciousness, Travis is discovered by Carlton Toomey, the wise and vicious farmer who set the trap to protect his plants, and Travis's confrontation with the subtle evils within his rural world has begun. Before long, Travis has moved out of his parents' home to live with Leonard Shuler, a one-time schoolteacher who lost his job and custody of his daughter years ago, when he was framed by a vindictive student. Now Leonard lives with his dogs and his sometime girlfriend in a run-down trailer outside town, deals a few drugs, and studies journals from the Civil War. Travis becomes his student, of sorts, and the fate of these two outsiders becomes increasingly entwined as the community's terrible past and corrupt present bear down on each of them from every direction, leading to a violent reckoning—not only with Toomey, but with the legacy of the Civil War massacre that, even after a century, continues to divide an Appalachian community. Vivid, harrowing yet ultimately hopeful, *The World Made Straight* is Ron Rash's subtlest exploration yet of the painful conflict between the bonds of home and the desire for independence.

Buried bones. A boy. And tales of lost love. When a young boy is running home through the woods, he finds a bone: a forearm to be precise; a human forearm. This discovery sets in motion the reopening of a cold case that Reverend Annabelle Dixon, it seems, simply can't leave alone. In the quiet and relatively uneventful village of Upton St. Mary, gossip arises as word spreads that a body has been found in the woods. Once the investigation begins, the forensic team believes that it has been there for over a decade. But the question remains: who was buried there all those years ago? In the sequel to Murder at the Mansion, Reverend Annabelle finds herself in amongst the thick of the investigation. With her knack for gaining people's trust, winking out their secrets, and piecing clues together, Annabelle is determined to solve the mystery. In Body in the Woods, there are laugh out loud moments as Annabelle gets herself into plenty of scrapes. There is also a newcomer to the village with his heart set on love, antagonism with her crush, Inspector Nicholls, and Philippa, her church secretary, once more supplying Annabelle with gossip, cake, and her own little puzzle that gets Annabelle a-thinking. Included in this book are recipes for: Ecclesiastical Chocolate clairs Divine Chocolate Dipped Shortbread Rapturous Raspberry Cheesecake Annabelle's Favorite Apricot Tart Saintly Strawberry Cupcakes Interview with the Creator of the Series Q - So, what makes the Reverend Annabelle Dixon series special? A - Annabelle. When I set out to write these books, I wanted to create a series that featured a heart-warming, smart, sometimes ditzy, ultimately good protagonist that we all undisputedly adore. It is Annabelle - her humanity, her empathy, her big heart - who makes the series so special. With her sometimes partner, sometimes antagonist, Inspector Mike Nicholls, they create some fun and drama as the small town mysteries unfold with humor and intrigue. If you enjoy the TV series, The Vicar of Dibley, Miranda, or Midsomer Murders, I think you will enjoy the Reverend Annabelle cozy mysteries. Q - In what order should I read the books? A - The Reverend Annabelle Dixon cozy mysteries can be read, and enjoyed, in any order. The prequel, Death at the Caf is set in London and takes place a few years before the rest in the series. If you do want to read them in order, I'd suggest the following sequence: Death at the Caf (prequel) Murder at

the Mansion Body in the Woods Q - Why should readers give these books a try? A - Because the Reverend Annabelle series is a gentle, but colorful romp through the beautiful English countryside in a place that is picturesque and peaceful on the outside but one filled with amoral and snobbish eccentrics with all kinds of vices on the inside. Annabelle is a fun, uncomplicated character who is soulful, devout, smart, and funny with penchant for cake. Both Jamie and I feature many English countryside rituals, institutions and customs in these stories. Ultimately, readers who enjoy gentle pacing with a plot that twists and turns, features much fun, drama, quintessential Britishness, and small town murder, will get a kick out of this series. It will make you laugh and you will, I hope, become invested in the characters, rooting for them to come out on top. The Night She Disappeared

When first-time author and artist Deborah Paris stepped into Lennox Woods, an old-growth southern hardwood forest in northeast Texas, she felt a disruption that was both spatial and temporal. Walking the remnants of an old wagon trail past ancient stands of pine, white oak, elm, hickory, sweetgum, maple, hornbeam, and red oak, she felt drawn into a reverie that took her back to "the beginning, both physically and metaphorically." *Painting the Woods: Nature, Memory and Metaphor* explores the experience of landscape through the lens of art and art-making. It is a place-based meditation on nature, art, memory, and time, grounded in Paris's experiences over the course of a year in Lennox Woods. Her account unfolds through the twin arcs of the changing seasons and her creative process as a landscape painter. In the tradition of Annie Dillard's *Pilgrim at Tinker Creek*, narrative passages interweave with observations about the natural history of Lennox Woods, its flora and fauna, art history, the science of memory, Transcendentalist philosophy, the role of metaphor in creative work, and even loop quantum gravity theory. Each chapter explores a different aspect of the forest and a different step in the art-making process, illuminating our connection to the natural world through language, comprehension of time, and visual depictions of the landscape. The complex layers of the forest and Paris's journey through it emerge as metaphors for the larger themes of the book, just as the natural world underpins the art-making drawn from it. Like the trail that winds through Lennox Woods, memory and time intertwine to provide a path for understanding nature, art, and our relationship to both.

The Book That Launched an International Movement "An absolute must-read for parents." —The Boston Globe "It rivals Rachel Carson's *Silent Spring*." —The Cincinnati Enquirer "I like to play indoors better 'cause that's where all the electrical outlets are," reports a fourth grader. But it's not only computers, television, and video games that are keeping kids inside. It's also their parents' fears of traffic, strangers, Lyme disease, and West Nile virus; their schools' emphasis on more and more homework; their structured schedules; and their lack of access to natural areas. Local governments, neighborhood associations, and even organizations devoted to the outdoors are placing legal and regulatory constraints on many wild spaces, sometimes making natural play a crime. As children's connections to nature diminish and the social, psychological, and spiritual implications become apparent, new research shows that nature can offer powerful therapy for such maladies as depression, obesity, and attention deficit disorder. Environment-based education dramatically improves standardized test scores and grade-point averages and develops skills in problem solving, critical thinking, and decision making. Anecdotal evidence strongly suggests that childhood experiences in nature stimulate creativity. The Woods

When Claudia Muller, a young American woman, turns up dead in the courtyard of an ancient castle in his jurisdiction, Bruno Courrèges initially assumes that she died of an overdose. But Claudia's doctor soon persuades him that things may not be so simple, setting Bruno on an investigation that will lead him from the Renaissance to the French Resistance and beyond. Claudia had been studying with Monsieur de Bourdeille, a renowned art historian who became extraordinarily wealthy through the sale of paintings that may have been falsely attributed--or so Claudia suggested shortly before her death. In his younger days, Bourdeille had aided the Resistance and been arrested by a Vichy police officer whose own life story also becomes inexorably entangled with the case. Also in the mix is a young falconer who works at the Château des Milandes, the former home of fabled jazz singer Josephine Baker. Once again, it's up to Bruno to make sure that justice is served--along with a generous helping of his signature Périgordian cuisine, of course.

God only knows what possessed Bill Bryson, a reluctant adventurer if ever there was one, to undertake a gruelling hike along the world's longest continuous footpath--The Appalachian Trail. The 2,000-plus-mile trail winds through 14 states, stretching along the east coast of the United States, from Georgia to Maine. It snakes through some of the wildest and most spectacular landscapes in North America, as well as through some of its most poverty-stricken and primitive backwoods areas. With his offbeat sensibility, his eye for the absurd, and his laugh-out-loud sense of humour, Bryson recounts his confrontations with nature at its most uncompromising over his five-month journey.
