virus spread rapidly through a clinical desert where basic health-care facilities were few and far between. Causing severe loss of life and economic disruption, the Ebola crisis was a major tragedy of modern medicine. But why did it happen, and what can we learn from it? Paul Farmer, the internationally renowned doctor and anthropologist, experienced the Ebola outbreak firsthand—Partners in Health, the organization he founded, was among the international responders. In *Fevers, Feuds, and Diamonds*, he offers the first substantive account of this frightening, fast-moving episode and its implications. In vibrant prose, Farmer tells the harrowing stories of Ebola victims while showing why the medical response was slow and insufficient. Rebutting misleading claims about the origins of Ebola and why it spread so rapidly, he traces West Africa's chronic health failures back to centuries of exploitation and injustice. Under formal colonial rule, disease containment was a priority but care was not—and the region's health care woes worsened, with devastating consequences that Farmer traces up to the present. This thorough and hopeful narrative is a definitive work of reportage, history, and advocacy, and a crucial intervention in public-health discussions around the world.

Furious Hours

The true story of one of the most devastating wildfires in Australian history and the search for the man who started it. On the scorching February day in 2009, a man lit two fires in the Australian state of Victoria, then sat on the roof of his house to watch the inferno. What came to be known as the Black Saturday bushfires killed 173 people and injured hundreds more, making them among the deadliest and most destructive wildfires in Australian history. As communities reeling from unspeakable loss demanded answers, detectives scrambled to piece together what really happened. They soon began to suspect the fires had been deliberately set by an arsonist. The Arsonist takes readers on the hunt for this man, and inside the puzzle of his mind. But this book is also the story of fire in the Anthropocene. The command of fire has defined and sustained us as a species, and now, as climate change normalizes devastating wildfires worldwide, we must contend with the forces of inequality, and desperate yearning for power, that can lead to such destruction. Written with Chloe Hooper's trademark lyric detail and nuance, *The Arsonist* is a reminder that in the age of fire, all of us are gatekeepers.

The Arsonist

On September 28, 2000, former Indiana State Trooper David Camm made a frantic call to his former colleagues in the state troopers office: He'd just walked into his garage, and found lying on the floor the bodies of his 35-year-old wife, Kim, and their two children, Brad and Jill, ages 7 and 5. This was the kind of crime that could tear the heart out of a community. The Camms lived the American Dream. They had what seemed like a loving marriage, a nice little house with a white picket fence, and two adorable children. To top it all off, David Camm was a pillar of the community who had dedicated his career to the enforcement of the law and the sanctity of human life. Then, this happened. Three days later, it got worse when police arrested David Camm for the triple murder. Soon, new stories started emerging: stories about mistresses and violent bursts of temper. And as the ugly truth about the Camms' marriage got uglier and the evidence against David started piling up, two families-and the community at large-took positions at opposite sides of a yawning and bitter divide. Was David Camm a dedicated,

The Case of the Deadly Butter Chicken

This "superbly written true-crime story" (Michael Lewis, The New York Times Book Review) masterfully brings together the tales of a serial killer in 1970s Alabama and of Harper Lee, the beloved author of *To Kill a Mockingbird*, who tried to write his story. Reverend Willie Maxwell was a rural preacher accused of murdering five of his family members, but with the help of a savvy lawyer, he escaped justice for years until a relative assassinated him at the funeral of his last victim. Despite hundreds of witnesses, Maxwell's murderer was acquitted--thanks to the same attorney who had previously defended the reverend himself. Sitting in the audience during the vigilante's trial was Harper Lee, who spent a year in town reporting on the Maxwell case and many more trying to finish the book she called *The Reverend*. Cep brings this remarkable story to life, from the horrifying murders to the courtroom drama to the racial politics of the Deep South, while offering a deeply moving portrait of one of our most revered writers.
