The Truth about Cancer: What You Need to Know about Cancer

Then, in the early 1900s, the Nobel-prize winning Dr. Otto Warburg, suggested that cancer
cells “live in hypoxic, very low oxygen, and acidic conditions and derive energy from sugars by
fermenting them the way yeast does.[2,3] From this, he theorized that these low-oxygen and
highly-acidic conditions caused cancer.

Truth: Finding the cure for cancer is proving to be more complex than mastering the engineering and physics required for spaceflight. Cancer actually includes a large group of diseases. Each person's cancer may have many different causes. Despite advances in diagnosis and treatment, doctors still have much to learn about what triggers a cell to become cancerous and why some people who have

The Truth About Alternative Medical Treatments

The polio vaccines developed in the 1950s by Jonas Salk and Albert Sabin allegedly eradicated one of the most feared diseases of the 20th century. The media hailed the success of these vaccines as a modern day miracle. However, the polio story has a much darker side that has mostly been kept a secret. Both Sabin's live virus vaccine given orally and Salk's inactivated virus vaccine given
