Is your child excited to draw or color, but still anxious to read? Both you and your child will love this book! Exciting Sight Words Coloring is not just any kid's coloring book! Each coloring page focuses on either a high-frequency word or a sight word. The focus word is a part of the coloring picture. The children color in and around the word, looking and reading the word over again and again, improving reading and spelling skills at the same time! With each new page, the children practice basic counting skills by simply counting the focus words on each page. Exciting Sight Words Coloring also supports creative thinking. The children are prompted to think of sentences or stories using both the focus word and the picture they are coloring. Last but not least benefit of this book is the coloring itself. Coloring supports child's fine motor skills development, aids in hand-eye coordination, but also develops the skill of patience and learn to focus on details. Learning sight words through coloring is fun and easy! To become confident readers, your children need to master their sight words. Sight words are words that occur frequently enough in written language that a child should recognize them automatically on sight. Another characteristic that makes many sight words special is that they don't follow the rules of phonics. For these reasons, mastering sight words is of great importance for boosting your child's reading confidence and future success. Take advantage of the benefits of coloring to help children review and reinforce sight words in a way that is both relaxing and fun. 25 Color by Sight Word pages and 25 duplicates without sight words that allow children to write their own sight word/color code or experiment with colors freely. 179 Dolch sight words for pre-k, kindergarten, first grade and second grade 2 levels of coloring difficulty One-sided pages allow for colored images to be presented separately.
