New York Times bestselling author Jodi Picoult is widely acclaimed for her ability to tap into the hearts and minds of real people. Now she explores what happens when a young woman's past—a past she didn't even know she had—catches up to her just in time to threaten her future. How do you recover the past when it was never yours to lose? Delia Hopkins has led a charmed life. Raised in rural New Hampshire by her beloved, widowed father, she now has a young daughter, a handsome fiancé, and her own search-and-rescue bloodhound, which she uses to find missing persons. But as Delia plans her wedding, she is plagued by flashbacks of a life she can't recall...until a policeman knocks on her door, revealing a secret about herself that changes the world as she knows it—and threatens to jeopardize her future. With *Vanishing Acts*, Jodi Picoult explores how life—as we know it—might not turn out the way we imagined; how the people we've loved and trusted can suddenly change before our very eyes; how the memory we thought had vanished could return as a threat. Once again, Picoult handles an astonishing and timely topic with understanding, insight, and compassion.

NOW A MAJOR MOTION PICTURE STARRING NOAH WYLE, JEREMY IRVINE, MINKA KELLY, ADELAIDE CLEMENS, STEVE EARLE, AND HALEY JOEL OSMENT. "ONE OF THE MAJOR WRITERS OF OUR TIME."—THE ATLANTA JOURNAL-CONSTITUTION Travis Shelton is seventeen the summer he wanders into the woods onto private property outside his North Carolina hometown, discovers a grove of marijuana large enough to make him some serious money, and steps into the jaws of a bear trap. After hours of passing in and out of consciousness, Travis is discovered by Carlton Toomey, the wise and vicious farmer who set the trap to protect his plants, and Travis's confrontation with the subtle evils within his rural world has begun. Before long, Travis has moved out of his parents' home to live with Leonard Shuler, a one-time schoolteacher who lost his job and custody of his daughter years ago, when he was framed by a vindictive student. Now Leonard lives with his dogs and his sometime girlfriend in a run-down trailer outside town, deals a few drugs, and studies journals from the Civil War. Travis becomes his student, of sorts, and the fate of these two outsiders becomes increasingly entwined as the community's terrible past and corrupt present bear down on each of them from every direction, leading to a violent reckoning—not only with Toomey, but with the legacy of the Civil War massacre that, even after a century, continues to divide an Appalachian community. Vivid, harrowing yet ultimately hopeful, *The World Made Straight* is Ron Rash's subtlest exploration yet of the painful conflict between the bonds of home and the desire for independence.

### **The Tenth Circle**

In *Vanishing Acts*, Brian Barker cements his reputation as one of contemporary poetry's great surrealists. These prose poems read like dreams and nightmares, fables and myths. With a dark whimsicality, Barker explores such topics as extinction, power, class, the consequences of tyranny and war, and the ongoing destruction of the environment in the name of progress. A linked sequence of poems forms the book's backbone, with an oracular voice from the future heralding the return--or hoped for return--of common animals. Part lyrical odes, part creation myths, part excerpts from a bizarre guide for naturalists, these poems mix fact and fiction, science and fable to create an unsettling vision of a

dystopian world stricken by extinction, one where the world's last catfish sleeps "in the shadow of a hydroelectric dam." The imaginative language and bizarre stories of these poems are perfectly suited to capture a world that no longer makes sense: a man who wears a toupee to hide an injury inflicted by secret police, a group of villagers who make a bad bargain with a land agent. The poems in *Vanishing Acts* straddle the comic and the tragic. They are by turns funny and haunting and ripe with scathing satire. They draw on the genres of speculative and science fiction as much as poetic traditions, and speak to the precarious state of man and the natural world in the twenty-first century.

In a dark land beyond death, a cast of characters—including a one-eyed boy, a mute girl, carnival performers, bicyclists, handless monks, ghost-women, film-makers—wanders inside and outside landscape and language, and through various ancient Chinese religious texts. Sometimes laconic (just a scrawled note left by one character for another) and sometimes an obsessive rush of language barely patched together with ampersands, the passion of this poem nearly overwhelms.
