Bloodtaking and Peacemaking

The Speeches of President John F. Kennedy, is an extensive compilation of the most important speeches and addresses delivered by the 35th President of the United States of America. Included in this publication are the full texts of just under forty key speeches which include state of the union addresses, foreign policy speeches, and commencement addresses. This is an excellent resource for learning more about the Kennedy administration from the words delivered by President John Fitzgerald Kennedy while serving in the nation's highest public office.

A Nation of Immigrants

Throughout his presidency, John F. Kennedy was passionate about the issue of immigration reform. He believed that America is a nation of people who value both tradition and the exploration of new frontiers, deserving the freedo.

Jack Kennedy

Details the life and character of the thirty-fifth president, distinguishing actual merits and flaws and establishing the facts behind the popular and political images

Profiles in Courage

Drawing on previously unavailable material and never-before-opened archives, An Unfinished Life is packed with revelations large and small -- about JFK's health, his love affairs, RFK's appointment as Attorney General, what Joseph Kennedy did to help his son win the White

House, and the path JFK would have taken in the Vietnam entanglement had he survived. Robert Dallek succeeds as no other biographer has done in striking a critical balance -- never shying away from JFK's weaknesses, brilliantly exploring his strengths -- as he offers up a vivid portrait of a bold, brave, complex, heroic, human Kennedy.

The Speeches of President John F. Kennedy

The hopes and purposes of President Kennedy's second and third years in office as revealed in his public statements and addresses.

Just Friends and Brave Enemies

Examines marine ichthyology and fish classification in California, as a guide to both sport and food fishing

Prelude to Leadership

A modern assessment of the thirty-fifth president evaluates the perspectives of both his supporters and revisionists, sharing nuanced interpretations of the influence of a range of factors from his family values and military contributions to his political achievements and personal scandals.

The Enemy Within

"This is a book about the most admirable of human virtues--courage. 'Grace under pressure,' Ernest Hemingway defined it. And these are the stories of the pressures experienced by eight United States Senators and the grace with which they endured them." -- John F. Kennedy
During 1954-55, John F. Kennedy, then a U.S. Senator, chose eight of his historical colleagues to profile for their acts of astounding integrity in the face of overwhelming opposition. These heroes include John Quincy Adams, Daniel Webster, Thomas Hart Benson, and Robert A. Taft. Awarded the Pulitzer Prize in 1956, Profiles in Courage resounds with timeless lessons on the most cherished of virtues and is a powerful reminder of the strength of the human spirit. It is, as Robert Kennedy states in the foreword, "not just stories of the past but a book of hope and confidence for the future. What happens to the country, to the world, depends on what we do with what others have left us.

Why England Slept

Provides a detailed analysis of the first presidential speech given by America's thirty-fifth chief executive, revealing little-known facts and anecdotes regarding quotation sources, literary influences, and subject matter decisions.

Marine Food and Game Fishes of California

A diary written during the summer of 1945, when the future president was a twenty-eight-year-old reporter, shares Kennedy's insights into postwar Europe

Profiles in Courage

Speeches and statements on U.S. foreign policy.

Recollections of John F. Kennedy

An appraisal of the tragic event of the thirties that led to World War II, giving an account of England's unpreparedness for war and a study of the short-comings of democracy when confronted by the menace of totalitarianism.

Why England Slept

When Jon Krakauer reached the summit of Mt. Everest in the early afternoon of May 10, 1996, he hadn't slept in fifty-seven hours and was reeling from the brain-altering effects of oxygen depletion. As he turned to begin the perilous descent from 29,028 feet (roughly the cruising altitude of an Airbus jetliner), twenty other climbers were still pushing doggedly to the top, unaware that the sky had begun to roil with clouds. Into Thin Air is the definitive account of the deadliest season in the history of Everest by the acclaimed Outside journalist and author of the bestselling Into the Wild. Taking the reader step by step from Katmandu to the mountain's deadly pinnacle, Krakauer has his readers shaking on the edge of their seat. Beyond the terrors of this account, however, he also peers deeply into the myth of the world's tallest mountain. What is it about Everest that has compelled so many people—including himself—to throw caution to the wind, ignore the concerns of loved ones, and willingly subject themselves to such risk, hardship, and expense? Written with emotional clarity and supported by his unimpeachable reporting, Krakauer's eyewitness account of what happened on the roof of the world is a singular achievement. From the Paperback edition.

Everything to Gain

In The Pity of War, Niall Ferguson makes a simple and provocative argument: that the human atrocity known as the Great War was entirely England's fault. Britain, according to Ferguson, entered into war based on naïve assumptions of German aims—and England's entry into the war transformed a Continental conflict into a world war, which they then badly mishandled, necessitating American involvement. The war was not inevitable, Ferguson argues, but rather the result of the mistaken decisions of individuals who would later claim to have been in the grip of

huge impersonal forces. That the war was wicked, horrific, inhuman, is memorialized in part by the poetry of men like Wilfred Owen and Siegfried Sassoon, but also by cold statistics. More British soldiers were killed in the first day of the Battle of the Somme than Americans in the Vietnam War; indeed, the total British fatalities in that single battle—some 420,000—exceeds the entire American fatalities for both World Wars. And yet, as Ferguson writes, while the war itself was a disastrous folly, the great majority of men who fought it did so with enthusiasm. Ferguson vividly brings back to life this terrifying period, not through dry citation of chronological chapter and verse but through a series of brilliant chapters focusing on key ways in which we now view the First World War. For anyone wanting to understand why wars are fought, why men are willing to fight them, and why the world is as it is today, there is no sharper nor more stimulating guide than Niall Ferguson's *The Pity of War*.

Jack 1939

The President's Book of Secrets

A bestselling modern classic—both poignant and funny—about a boy with autism who sets out to solve the murder of a neighbor's dog and discovers unexpected truths about himself and the world. Nominated as one of America's best-loved novels by PBS's *The Great American Read* Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. He relates well to animals but has no understanding of human emotions. He cannot stand to be touched. And he detests the color yellow. This improbable story of Christopher's quest to investigate the suspicious death of a neighborhood dog makes for one of the most captivating, unusual, and widely heralded novels in recent years.

"Let the Word Go Forth"

An appraisal of the tragic event of the thirties that led to World War II, giving an account of England's unpreparedness for war and a study of the short-comings of democracy when confronted by the menace of totalitarianism.

The Search for JFK

“One of the best books on the American presidency to appear in recent years” (*The Wall Street Journal*) and based on a decade of research and reporting—a delightful new window into the public and private lives America's presidents as authors. Most Americans are familiar with Abraham Lincoln's famous words in the Gettysburg Address and the Emancipation Proclamation. Yet few can name the work that helped him win the presidency: his published collection of speeches entitled *Political Debates between Hon. Abraham Lincoln and Hon. Stephen A. Douglas*. Lincoln labored in secret to get his book ready for the 1860 election, tracking down newspaper transcripts, editing them carefully for

fairness, and hunting for a printer who would meet his specifications. Political Debates sold fifty thousand copies—the rough equivalent of half a million books in today’s market—and it reveals something about Lincoln’s presidential ambitions. But it also reveals something about his heart and mind. When voters asked about his beliefs, Lincoln liked to point them to his book. In Craig Fehrman’s “original, illuminating, and entertaining” (Jon Meacham) work of history, the story of America’s presidents and their books opens a rich new window into presidential biography. From volumes lost to history—Calvin Coolidge’s Autobiography, which was one of the most widely discussed titles of 1929—to ones we know and love—Barack Obama’s Dreams from My Father, which was very nearly never published—Fehrman unearths countless insights about the presidents through their literary works. Presidential books have made an enormous impact on American history, catapulting their authors to the national stage and even turning key elections. Beginning with Thomas Jefferson’s Notes on the State of Virginia, the first presidential book to influence a campaign, and John Adams’s Autobiography, the first score-settling presidential memoir, Author in Chief draws on newly uncovered information—including never-before-published letters from Andrew Jackson, John F. Kennedy, and Ronald Reagan—to cast fresh light on the private drives and self-doubts that fueled our nation’s leaders. We see Teddy Roosevelt as a vulnerable first-time author, struggling to write the book that would become a classic of American history. We see Reagan painstakingly revising *Where’s the Rest of Me?*, and Donald Trump negotiating the deal for *The Art of the Deal*, the volume that made him synonymous with business savvy. Alongside each of these authors, we also glimpse the everyday Americans who read them. “If you’re a history buff, a presidential trivia aficionado, or just a lover of American literary history, this book will transfix you, inform you, and surprise you” (The Seattle Review of Books).

Sounding the Trumpet

John Buchan 1st Baron Tweedsmuir, had a remarkable life and here is his wonderfully written and fascinating memoir. Buchan can very readily be described as a man of empire, serving in the army during the Boer war and becoming a diplomat and well read historian of the First World War, he settled as Governor General of Canada in 1935 having travelled the world in official posts for the British government. This autobiography was one of John F. Kennedy's favourite books.

John F. Kennedy

John F. Kennedy was not only a president, but also a symbol for America's most cherished ideas. In *The Kennedy Obsession*, John Hellmann takes a thoroughly original approach to understanding Kennedy's star power and his carefully crafted public image. Tracing Kennedy's self-creation as diligent scholar, bashful hero, and sensitive rebel-cued by cultural figures such as Lord Byron, Ernest Hemingway, and Cary Grant—and the images of Kennedy in the aftermath of his assassination, Hellmann reveals the painstaking transformation of private life into public persona, of a man into perhaps the major American myth of our time.

While America Slept

Reproduction of the original: Timothy ?s Quest by Kate Douglas Wiggin

Why England Slept

Set against the rise of fascism in 1930s Europe, *While England Sleeps* tells the story of a love affair between Brian Botsford, an upper-class young English writer, and Edward Phelan, an idealistic employee of the London Underground and member of the Communist Party. Though far better educated than Edward, Brian is also far more callow, convinced that his homosexuality is something he will outgrow. Edward, on the other hand, possesses "an unproblematic capacity to accept?? both Brian and the unorthodox nature of their love for each other-until one day, at the urging of his wealthy aunt Constance, Brian agrees to be set up with a "suitable?? young woman named Philippa Archibald . . . Pushed to the point of crisis, Edward flees, volunteering to fight Franco in Spain, where he ends up in prison. And Brian, feeling responsible for Edward's plight, must pursue him across Europe, and into the chaos of war.

Memory Hold-The-Door

A dual account of the former president and first lady describes their post-White House careers and highlights such topics as midlife marriage, America's health-care issues, the efforts of the Carter Center, and more. Original. UP.

Into Thin Air

Tapped by President Roosevelt to travel to Europe and learn what the Nazis are planning, twenty-two-year-old John F. Kennedy joins the president's efforts to stop the flow of German money that is influencing the 1940 U.S. election.

The Burden and the Glory

Quotes poignant and significant passages from every JFK speech and places each in its historical and political context

Author in Chief

Every president has had a unique and complicated relationship with the intelligence community. While some have been coolly distant, even adversarial, others have found their intelligence agencies to be among the most valuable instruments of policy and power. Since John F. Kennedy's presidency, this relationship has been distilled into a personalized daily report: a short summary of what the intelligence apparatus considers the most crucial information for the president to know that day about global threats and opportunities. This top-secret document is

known as the President's Daily Brief, or, within national security circles, simply "the Book." Presidents have spent anywhere from a few moments (Richard Nixon) to a healthy part of their day (George W. Bush) consumed by its contents; some (Bill Clinton and George H. W. Bush) consider it far and away the most important document they saw on a regular basis while commander in chief. The details of most PDBs are highly classified, and will remain so for many years. But the process by which the intelligence community develops and presents the Book is a fascinating look into the operation of power at the highest levels. David Priess, a former intelligence officer and daily briefer, has interviewed every living president and vice president as well as more than one hundred others intimately involved with the production and delivery of the president's book of secrets. He offers an unprecedented window into the decision making of every president from Kennedy to Obama, with many character-rich stories revealed here for the first time.

Profiles in Courage for Our Time

A portrait of the thirty-fifth president draws on newly released government archive material and the JFK library to offer insights into both his strengths and character flaws.

The Kennedy Obsession

Dubbed by the New York Times as "one of the most sought-after legal academics in the county," William Ian Miller presents the arcane worlds of the Old Norse studies in a way sure to attract the interest of a wide range of readers. *Bloodtaking and Peacemaking* delves beneath the chaos and brutality of the Norse world to discover a complex interplay of ordering and disordering impulses. Miller's unique and engaging readings of ancient Iceland's sagas and extensive legal code reconstruct and illuminate the society that produced them. People in the saga world negotiated a maze of violent possibility, with strategies that frequently put life and limb in the balance. But there was a paradox in striking the balance—one could not get even without going one better. Miller shows how blood vengeance, law, and peacemaking were inextricably bound together in the feuding process. This book offers fascinating insights into the politics of a stateless society, its methods of social control, and the role that a uniquely sophisticated and self-conscious law played in the construction of Icelandic society.

"Illuminating."—Rory McTurk, *Times Literary Supplement* "An impressive achievement in ethnohistory; it is an amalgam of historical research with legal and anthropological interpretation. What is more, and rarer, is that it is a pleasure to read due to the inclusion of narrative case material from the sagas themselves."—Dan Bauer, *Journal of Interdisciplinary History*

John F. Kennedy

While America Sleeps

Seminar paper from the year 2005 in the subject Rhetoric / Elocution / Oratory, grade: 1,0, Catholic University Eichstatt-Ingolstadt (Lehrstuhl für Amerikanistik), course: Proseminar "American West - Myths of the Frontier," 12 entries in the bibliography, language: English, comment: This work examines the use of the pioneer myth in Kennedy's rhetoric and the transfer of the frontier image of the American West to the situation at the beginning of the 1960s. Two of his speeches are interpreted and analysed, including his famous "Nomination Acceptance Speech." Furthermore, his political performance is evaluated and compared to the contents of his speeches, the idea is to examine whether or not Kennedy delivered what he promised and to evaluate his presidency., abstract: This work examines the use of the pioneer myth in Kennedy's rhetoric and the transfer of the frontier image of the American West to the situation at the beginning of the 1960s. Two of his speeches, the "Nomination Acceptance Speech" and the "Remarks at the Dedication of the Aerospace Medical Health Center" are interpreted and analyzed. In this part of the paper, the literary aspects of the speeches are examined, most importantly the theme of the "New Frontier." Furthermore, his political performance is evaluated and compared to the contents of his speeches; the idea is to examine whether or not Kennedy delivered what he promised and to evaluate his presidency in accordance with the means of political science."

Rethinking Kennedy

John F. Kennedy and the New Frontier - The Rhetoric and the Political Results

Profiles the recipients of the Profiles in Courage Award, established by the Kennedys in 1989 to honor courageous public service.

Timothy ?s Quest

Based on interviews with some of his closest associates, a portrait of the thirty-fifth president discusses his privileged childhood, military service, struggles with a life-threatening disease, and career in politics.

The Strategy of Peace

Written in 1955 by the then junior senator from the state of Massachusetts, John F. Kennedy's Profiles in Courage served as a clarion call to every American. The inspiring true accounts of eight unsung heroic acts by American patriots at different junctures in our nation's history, Kennedy's book became required reading, an instant classic, and was awarded the Pulitzer Prize. Now, a half-century later, it remains a moving, powerful, and relevant testament to the indomitable national spirit and an unparalleled celebration of that most noble of human virtues. This special "P.S." edition of Profiles in Courage commemorates the fiftieth anniversary of the book's publication. Included in this new edition, along with vintage photographs and an extensive author biography, are Kennedy's correspondence about the writing project, contemporary reviews of the book, a letter from Ernest Hemingway, and two rousing speeches from recipients of the Profile in Courage

Award.

While England Slept

While England Sleeps

An Unfinished Life

William Manchester's epic and definitive account of President John F. Kennedy's assassination--now restored to print in a new paperback edition. As the world still reeled from the tragic and historic events of November 22, 1963, William Manchester set out, at the request of the Kennedy family, to create a detailed, authoritative record of the days immediately preceding and following President John F. Kennedy's death. Through hundreds of interviews, abundant travel and firsthand observation, and with unique access to the proceedings of the Warren Commission, Manchester conducted an exhaustive historical investigation, accumulating forty-five volumes of documents, exhibits, and transcribed tapes. His ultimate objective -- to set down as a whole the national and personal tragedy that was JFK's assassination -- is brilliantly achieved in this galvanizing narrative, a book universally acclaimed as a landmark work of modern history.

The Pity of War

This biography introduces readers to John F. Kennedy including his military service, early political career, and key events from Kennedy's administration including the Cold War, space race, Bay of Pigs invasion, Cuban missile crisis, and his assassination by Lee Harvey Oswald. Information about his childhood, family, and personal life is included. A timeline, fast facts, and sidebars provide additional information. Aligned to Common Core Standards and correlated to state standards. Checkerboard Library is an imprint of Abdo Publishing, a division of ABDO.

The Curious Incident of the Dog in the Night-Time

Robert C. O'Brien's collection of essays on U.S. national security and foreign policy, with a forward by Hugh Hewitt, is a wake up call to the American people. The world has become steadily more dangerous under President Obama's "lead from behind" foreign policy. The Obama Administration's foreign policy has emboldened our adversaries and disheartened our allies. Indeed, Obama's nuclear deal with Iran is a 1938 moment. At the same time, the U.S. military has been cut and risks returning to the hollow force days of the 1970s. O'Brien lays out the challenges and provides the common sense "peace through strength" solutions that will allow the next president to make America great

again.

The Death of a President

An exploration from two respected historians of the fascinating similarities between Britain's military policy between the world wars and contemporary American military policy reveals telling weaknesses in the current defense preparations of the United States. Reprint. 10,000 first printing.
