NOW A MAJOR MOTION PICTURE STARRING NOAH WYLE, JEREMY IRVINE, MINKA KELLY, ADELAIDE CLEMENS, STEVE EARLE, AND HALEY JOEL OSMENT. "ONE OF THE MAJOR WRITERS OF OUR TIME." —THE ATLANTA JOURNAL-CONSTITUTION
Travis Shelton is seventeen the summer he wanders into the woods onto private property outside his North Carolina hometown, discovers a grove of marijuana large enough to make him some serious money, and steps into the jaws of a bear trap. After hours of passing in and out of consciousness, Travis is discovered by Carlton Toomey, the wise and vicious farmer who set the trap to protect his plants, and Travis's confrontation with the subtle evils within his rural world has begun. Before long, Travis has moved out of his parents' home to live with Leonard Shuler, a one-time schoolteacher who lost his job and custody of his daughter years ago, when he was framed by a vindictive student. Now Leonard lives with his dogs and his sometime girlfriend in a run-down trailer outside town, deals a few drugs, and studies journals from the Civil War. Travis becomes his student, of sorts, and the fate of these two outsiders becomes increasingly entwined as the community's terrible past and corrupt present bear down on each of them from every direction, leading to a violent reckoning—not only with Toomey, but with the legacy of the Civil War massacre that, even after a century, continues to divide an Appalachian community. Vivid, harrowing yet ultimately hopeful, *The World Made Straight* is Ron Rash's subtlest exploration yet of the painful conflict between the bonds of home and the desire for independence.

Things Fall Apart

One of the BBC's '100 Novels That Shaped Our World' A worldwide bestseller and the first part of Achebe's African Trilogy, *Things Fall Apart* is the compelling story of one man's battle to protect his

community against the forces of change Okonkwo is the greatest wrestler and warrior alive, and his fame spreads throughout West Africa like a bush-fire in the harmattan. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. First published in 1958, Chinua Achebe's stark, coolly ironic novel reshaped both African and world literature, and has sold over ten million copies in forty-five languages. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in *Arrow of God* and *No Longer at Ease*. 'His courage and generosity are made manifest in the work' Toni Morrison 'The writer in whose company the prison walls fell down' Nelson Mandela 'A great book, that bespeaks a great, brave, kind, human spirit' John Updike With an Introduction by Biyi Bandele

This study examines the emergence of new forms of Islamic spirituality in Indonesia identified as *Majlis Dhikr*. These *Majlis Dhikr* groups have proliferated on Java in the last two decades, both in urban and rural areas, and have attracted followers from a wide social background. The diverse aspects of these *Majlis Dhikr* groups - their rituals, teachings and strategies of dissemination as well as the popular understanding of these rituals and their contestation by critics and opponents - are examined in detail and illustrated by reference to three particular groups - *Salawat Wahidiyat*, *Istighathat Ihsaniyyat* and *Dhikr al-Ghafilin* each of which has its own distinctive features and notable religious leadership. These *Majlis Dhikr* groups regard their activities as legitimate ritual practices that are in accordance with the legacy of Islamic Sufism based on the interpretation of the Qur'anic and Prophetic tradition.

Isaac Green, Brahim Surin, and Jim Murphy are known on Wall Street as the three bulls. The day they started World Corporation, they made a pact: one for all and all for one. Twenty-five years later, World has become one of the most successful companies in history and has taken the partners in directions they never expected. Their business takes them all around the globe, from New York to London, Hong Kong to Paris, Jerusalem to Iran, and back again. Spies, microchips, and assassinations abound, and international espionage, kidnappings, and hostage situations become old hat to these three partners who always end up where the action is. While they are determined to be the front-runners for peace, the world around them keeps attempting to prove them wrong. The word "partner" has never meant as much as it does now. But how long can a Jew, a Muslim, and a Catholic hold on to the promise they made to each other when terrorists threaten their families and their way of life? Decisions will be made, friendships will be tested, and destinies will be altered forever.

A History of the World

Discusses the idea that mainstream culture has generally represented the mother/daughter relationship as one of never-ending conflict

Worlds Together, Worlds Apart a History of the World

The surveillance of immigrants and potential terrorists preoccupies leaders throughout the industrialized world. Yet these concerns are hardly new. Policing Paris examines a critical moment in the history of immigration control and political surveillance. Drawing on massive police archives and other materials, Clifford Rosenberg shows how in the years after the Great War the French police, terrified by the Bolshevik Revolution and the specter of immigrant criminality, became the first major force anywhere systematically to enforce distinctions of citizenship and national origins. As the French capital emerged as a haven for refugees, dissidents, and workers from throughout Europe and across the Mediterranean in the 1920s, police officers raided immigrant neighborhoods to scare illegal aliens into registering with authorities and arrested those whose papers were not in order. The police began to concentrate on colonial workers from North Africa, tracking these workers with a special police brigade and segregating them in their own hospital when they fell ill. Transformed by their enforcement, legal categories that had existed for hundreds of years began to matter as never before. They determined whether or not families could remain together and whether people could keep their jobs or were forced to flee. During World War II, identity controls marked out entire populations for physical destruction. The treatment of foreigners during the Third Republic, Rosenberg contends, shaped the subsequent treatment of Jews by Vichy. At the same time, however, he argues that the new methods of identification pioneered between the wars are more directly relevant to the present day. They created forms of inclusion and inequality that remain pervasive, as industrial welfare states around the world find themselves compelled to provide benefits to their own citizens and recruit foreign nationals to satisfy their labor needs.

Worlds Together, Worlds Apart

'This is the most engaging and cutting-edge survey of the world available today. Beginning with the origins of humanity up to our current times, this leading group of world historians tells the history of the

world through a series of transformative stories: Out of Africa, the Axial Age, the building of the Silk Road, the rise of the world's major universalising religions, the expansion of the Mongol Empire, the Black Death, the Spread of New World Silver, the Slave Trade, the Atlantic Revolutions, Nineteenth-Century Alternative Visions, Nations and Empires, Masses and Modernity, the Three-World Order, and Contemporary Globalism. Throughout they argue that the world can best be viewed as a struggle of people's becoming more integrated as the world comes together through increased trade, warfare, and cultural exchange, while they also exhibit the strong desire for their world to stand apart and maintain its own traditional identity. Worlds Together, Worlds Apart is guaranteed to challenge conventional notions about the role of the West in our larger world history.' (Publisher)

This lush book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals--especially those that are endangered. His powerful message, conveyed with humor, compassion, and art--to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits-- from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the eloquent prose of veteran wildlife writer Douglas Chadwick, this book presents a thought-provoking argument for saving all the species of our planet.

Through detailed ethnographic examples, in regions such as West Africa, Hawaii, Australia, Belize and Egypt, they show precisely how global institutions, including capitalism and mass consumption, are manifested in local contexts. Their work exemplifies the role of anthropologists in this area and provides a model for future anthropological research. It also shows that an ethnographic approach will be invaluable to emerging discipline, such as cultural studies and media studies.

Policing Paris

First published in 1999, *Worlds Apart* examined the nature of poverty through the stories of real people in three remote rural areas of the United States: New England, Appalachia, and the Mississippi Delta. In this new edition, Duncan returns to her original research, interviewing some of the same people as well as some new key informants. Duncan provides powerful new insights into the dynamics of poverty, politics, and community change. "Duncan, through in-depth investigation and interviews, concludes that only a strong civic culture, a sense among citizens of community and the need to serve that community, can truly address poverty. . . . Moving and troubling. Duncan has created a remarkable study of the persistent patterns of poverty and power." *Kirkus Reviews* "The descriptions of rural poverty in *Worlds Apart* are interesting and read almost like a novel." *Choice*
