Washington Post national investigative reporter Carol Leonnig and White House bureau chief Philip Rucker, both Pulitzer Prize winners, provide the definitive insider narrative of Donald Trump's unique presidency with shocking new reporting and insight into its implications. "I alone can fix it." So went Donald J. Trump's march to the presidency on July 21, 2016, when he accepted the Republican presidential nomination in Cleveland, promising to restore what he described as a fallen nation. Yet over the subsequent years, as he has undertaken the actual work of the commander in chief, it has been hard to see beyond the daily chaos of scandal, investigation, and constant bluster. It would be all too easy to mistake Trump's first term for one of pure and uninhibited chaos, but there were patterns to his behavior and that of his associates. The universal value of the Trump administration is loyalty - not to the country, but to the president himself - and Trump's North Star has been the perpetuation of his own power, even when it meant imperiling our shaky and mistrustful democracy. Leonnig and Rucker, with deep and unmatched sources throughout Washington, D.C., tell of rages and frenzies but also moments of courage and perseverance. Relying on scores of exclusive new interviews with some of the most senior members of the Trump administration and other firsthand witnesses, the authors reveal the forty-fifth president up close, taking readers inside Robert Mueller's Russia investigation as well as the president's own haphazard but ultimately successful legal defense. Here for the first time certain officials who have felt honor-bound not to publicly criticize a sitting president or to divulge what they witnessed in a position of trust tell the truth for the benefit of history. This peerless and gripping narrative reveals President Trump at his most unvarnished and exposes how decision making in his administration has been driven by a reflexive logic of self-preservation and self-aggrandizement - but a logic nonetheless. This is the story of how an unparalleled president has scrambled to survive and tested the strength of America's democracy and its common heart as a nation.

The definitive oral history of the cult classic Dazed and Confused, featuring behind-the-scenes stories from the cast and crew and written with the cooperation of Oscar-nominated director Richard Linklater. Dazed and Confused not only heralded the arrival of filmmaker Richard Linklater, it introduced a cast of unknowns who would become the next generation of movie stars. Embraced as a cultural touchstone, the 1993 film would also make Matthew McConaughey's famous phrase—alright, alright, alright—ubiquitous. But it started with a simple idea: Linklater thought people might like to watch a movie about high school kids just hanging out and listening to music on the last day of school in 1976. To some, that might not even sound like a movie. But to a few studio executives, it sounded enough like

the next American Graffiti to justify the risk. Dazed and Confused made almost no money at the box office and seemed destined to disappear. Then something weird happened: Linklater turned out to be right. This wasn't the kind of movie everybody liked, but it was the kind of movie certain people loved, with an intensity that felt personal. No matter what their high school experience was like, they thought Dazed and Confused was about them. *Alright, Alright, Alright* is the story of how this iconic film came together and why it worked. Combining behind-the-scenes photos and insights from nearly the entire cast, including Matthew McConaughey, Parker Posey, Ben Affleck, Joey Lauren Adams, and many others, and with the full cooperation of Linklater himself, it offers an inside look at how a budding filmmaker and a cast of newcomers made a period piece that would feel timeless for decades to come.

## **The Gambler**

The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA

of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

The extraordinary story of how Georgia State University tore up the rulebook for educating lower-income students "Georgia State . . . has been reimagined—amid a moral awakening and a raft of data-driven experimentation—as one of the South's more innovative engines of social mobility." —The New York Times Won't Lose This Dream is the inspiring story of a public university that has blazed an extraordinary trail for lower-income and first-generation students in downtown Atlanta, the birthplace of the civil rights movement. Over the past decade Georgia State University has upended the conventional wisdom that large numbers of students are doomed to fail simply because of their economic background or the color of their skin. Instead, it has harnessed the power of big data to identify and remove the obstacles that previously stopped them from graduating and completely transformed their prospects. A student from a mediocre high school working two jobs to make ends meet is now no less likely to succeed than a child of wealth and privilege—an earth-shaking achievement that is reverberating across every college campus in the country. With unique access to the key players and drawing on his skills as an investigative reporter, Andrew Gumbel delivers a thrilling, blow-by-blow account of a long battle to determine whether universities exist for their students or vice versa. The story is told through the visionary leaders who overcame fierce resistance to tear up the rules of their own institution and through

A fallen world is full of reasons to lose heart. From the large-scale tragedies of war, famine, and natural disasters, to the more personal tragedies of broken relationships and broken dreams, it can be difficult to avoid discouragement--even for the believer. And yet, Scripture calls us to a life of hope, based not on wishful thinking or avoiding our problems but based on who God is, what he has done, and what he is still doing. In this short, giftable book, pastor Jason Meyer shows you that though the reasons for discouragement seem strong, the reasons we have to take heart and hold on to hope are stronger yet. Through biblical truth and personal stories, Meyer encourages the weary and anxious believer by shining light on the nature of reality, the nature of God, and the intersection of the two in our daily, rubber-meets-the-road lives. The result is a book that lifts our spirits in a world that too often seeks to drag us down.

“Beth Raymer’s crackling, hilarious memoir ricochets through the gambling underworld in Las Vegas, and is peopled with all manner of lovable wack-jobs, none of whom is quite as wacky—or lovable—as Raymer herself.”—Marie Claire Beth Raymer waited tables at a dive in Las Vegas until a customer sent her to see Dink, of Dink Inc., one of the town’s biggest professional sports gamblers. Dink needed a right-hand man—someone who would show up on time, who had a head for numbers, and who didn’t steal. Beth got the job. Lay the Favorite is the story of Beth’s years in the high-stakes, high-anxiety world of sports betting—a period that saw the fall of the local bookie and the birth of the freewheeling, unregulated offshore sports book, and with it the elevation of sports betting in popular culture. As the business explodes, Beth rises from assistant to expert, running an offshore booking office in the Caribbean. As the men around her succumb to their vices—money, sex, drugs, gambling—Beth improbably emerges with her integrity intact, wiser, sharper, nobody’s fool. A keen and compassionate observer of the adrenaline-addicted roguish types who become her mentors, her enemies, her family, Beth Raymer depicts an insanely colorful world teeming with pathos and ecstasy. NOW A MAJOR MOTION PICTURE “Candid, smart, funny, wild and crazy.”—Elle “Raymer gleefully shatters the myth of the modern gambler. . . . Seduced by her stories, we long for this strange, sleazy and alluring landscape.”—Los Angeles Times “[Raymer depicts] a sordid, florid microworld lurching along the edge of society, not to mention legality. . . . She never condescends or indulges in reality-show caricature; she finds charm in the charmless, a point of light in the most lost of souls.”—The New York Times Book Review “Lay the Favorite reads more like a novel than a memoir. The rich characters are drawn in depth, yet simply and honestly.”—The Wall Street Journal “Entertaining (and often quite funny) . . . a delight to read.”—The New Yorker

Since the discovery over one hundred years ago of a body of Mesopotamian poetry preserved on clay tablets, what has come to be known as the Epic of Gilgamesh has been considered a masterpiece of ancient literature. It recounts the deeds of a hero-king of ancient Mesopotamia, following him through adventures and encounters with men and gods alike. Yet the central concerns of the Epic lie deeper than the lively and exotic story line: they revolve around a man's eternal struggle with the limitations of human nature, and encompass the basic human feelings of loneliness, friendship, love, loss, revenge, and the fear of oblivion of death. These themes are developed in a distinctly Mesopotamian idiom, to be sure, but with a sensitivity and intensity that touch the modern reader across the chasm of three thousand years. This translation presents the Epic to the general reader in a clear narrative.
